Simplicity
easily understood through clear hierarchy and typography

Efficiency
modular design elements for greater flexibility and speed

Seamless Integration
converge in user's environment and tasks, easy transition

The visual design of the Sage represents company's values and its rich legacy. An intuitive user interface design is imperative to allow users to fully explore and be confident to complete tasks through Sage family of products.

 **Armonye** means Harmony from mid-English, first attested in 1602. Armonye Visual Design style is created and dedicated to provide a harmonious design experience from brand to product to help deliver Sage's brand promise.

Established Sage colors such as green and various colors and hues are used throughout the applications. The design is crisp and clean that includes complex data visualization in simplified graphics. The stylized background images are avoided to maintain a light and bright appearance.

The overall design is based on a grid system. Dark gray dashboard panels allow the most important data to bubble up at top level, enriching the environment and enhancing the user experience.

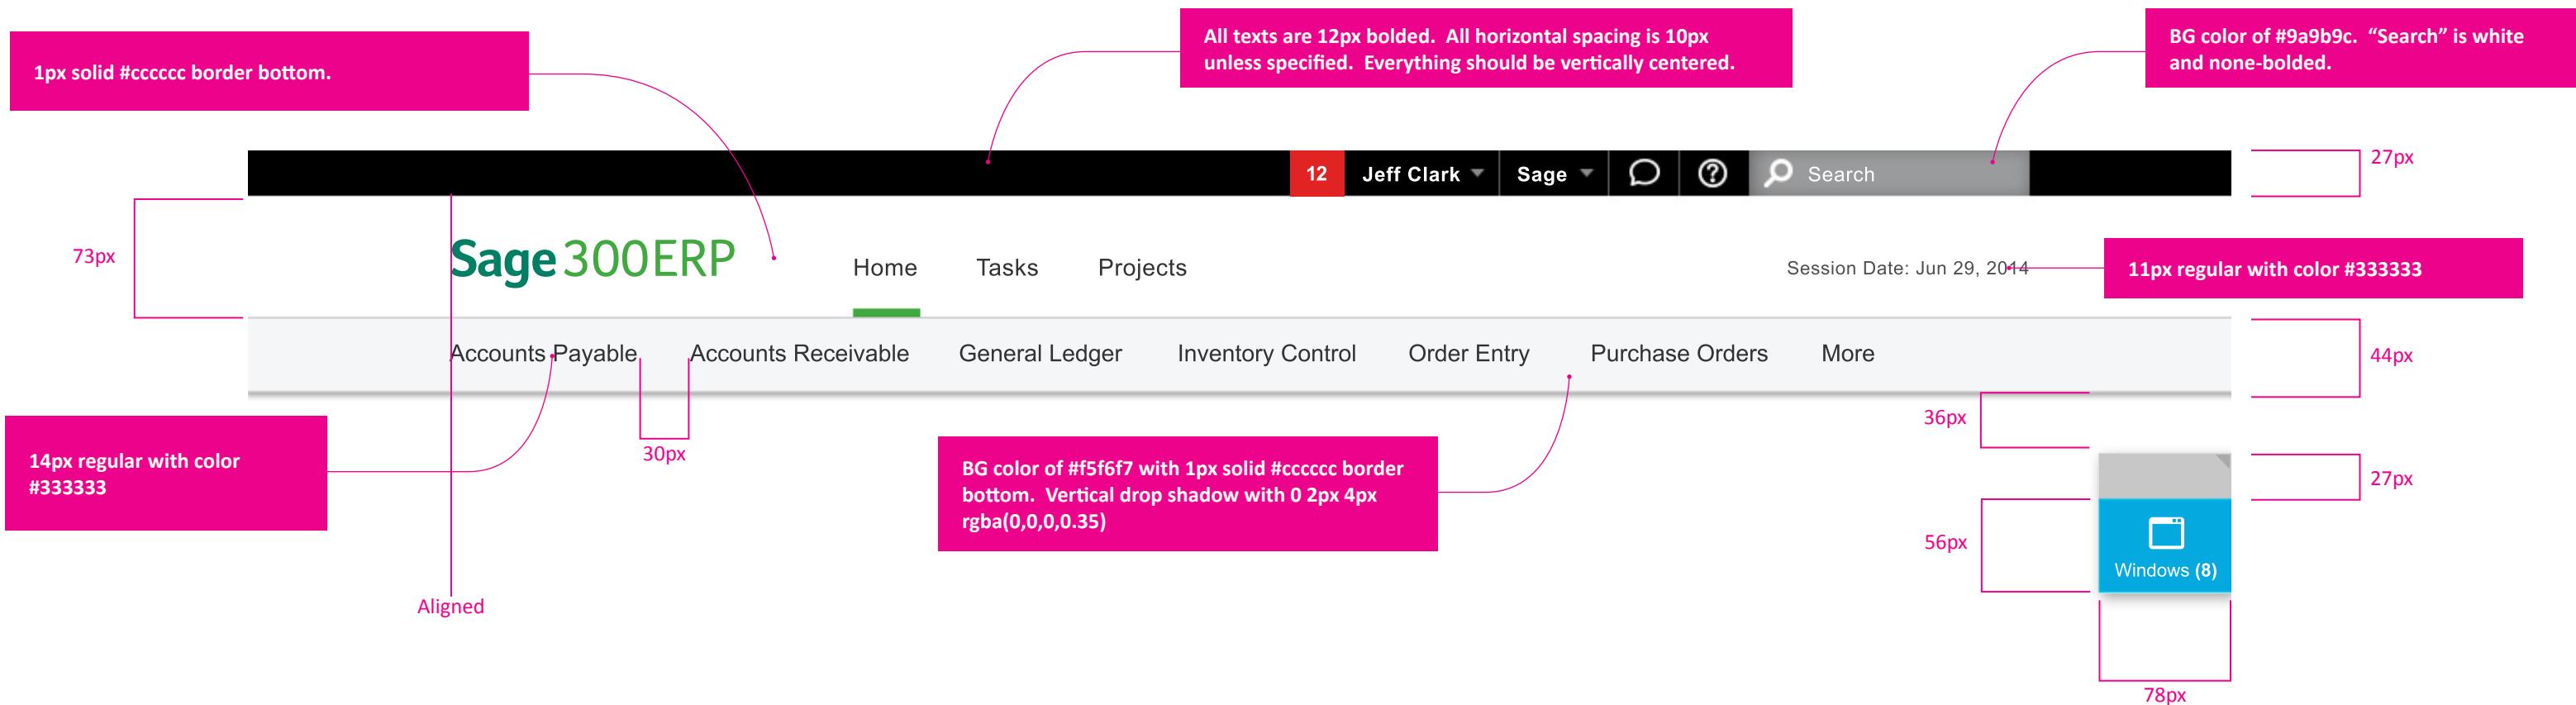

Platform and device specific typefaces are used to reduce time-to-market. Foco, the global corporate font, is used sparingly only at the top level screen in an application or in-product promotions as an image file.

The custom-designed iconography is simple and straight forward. Any additional icons should be custom-designed and follow the existing look and feel. Refrain from using clip art.

Animations and transitions are minimal to allow users to navigate quickly through the application.

Please note that all text and images in this document are For Position Only (FPO). For text/copy, please contact PDX User Assistance. For specific Visual Design needs, please contact PDX Design.

UI Screens

RULES

For any black colored text in the top mega menu, use #333333.

For green and blue colors, refer back to style guide for color code.

Do not use any animation for the top mega menu.

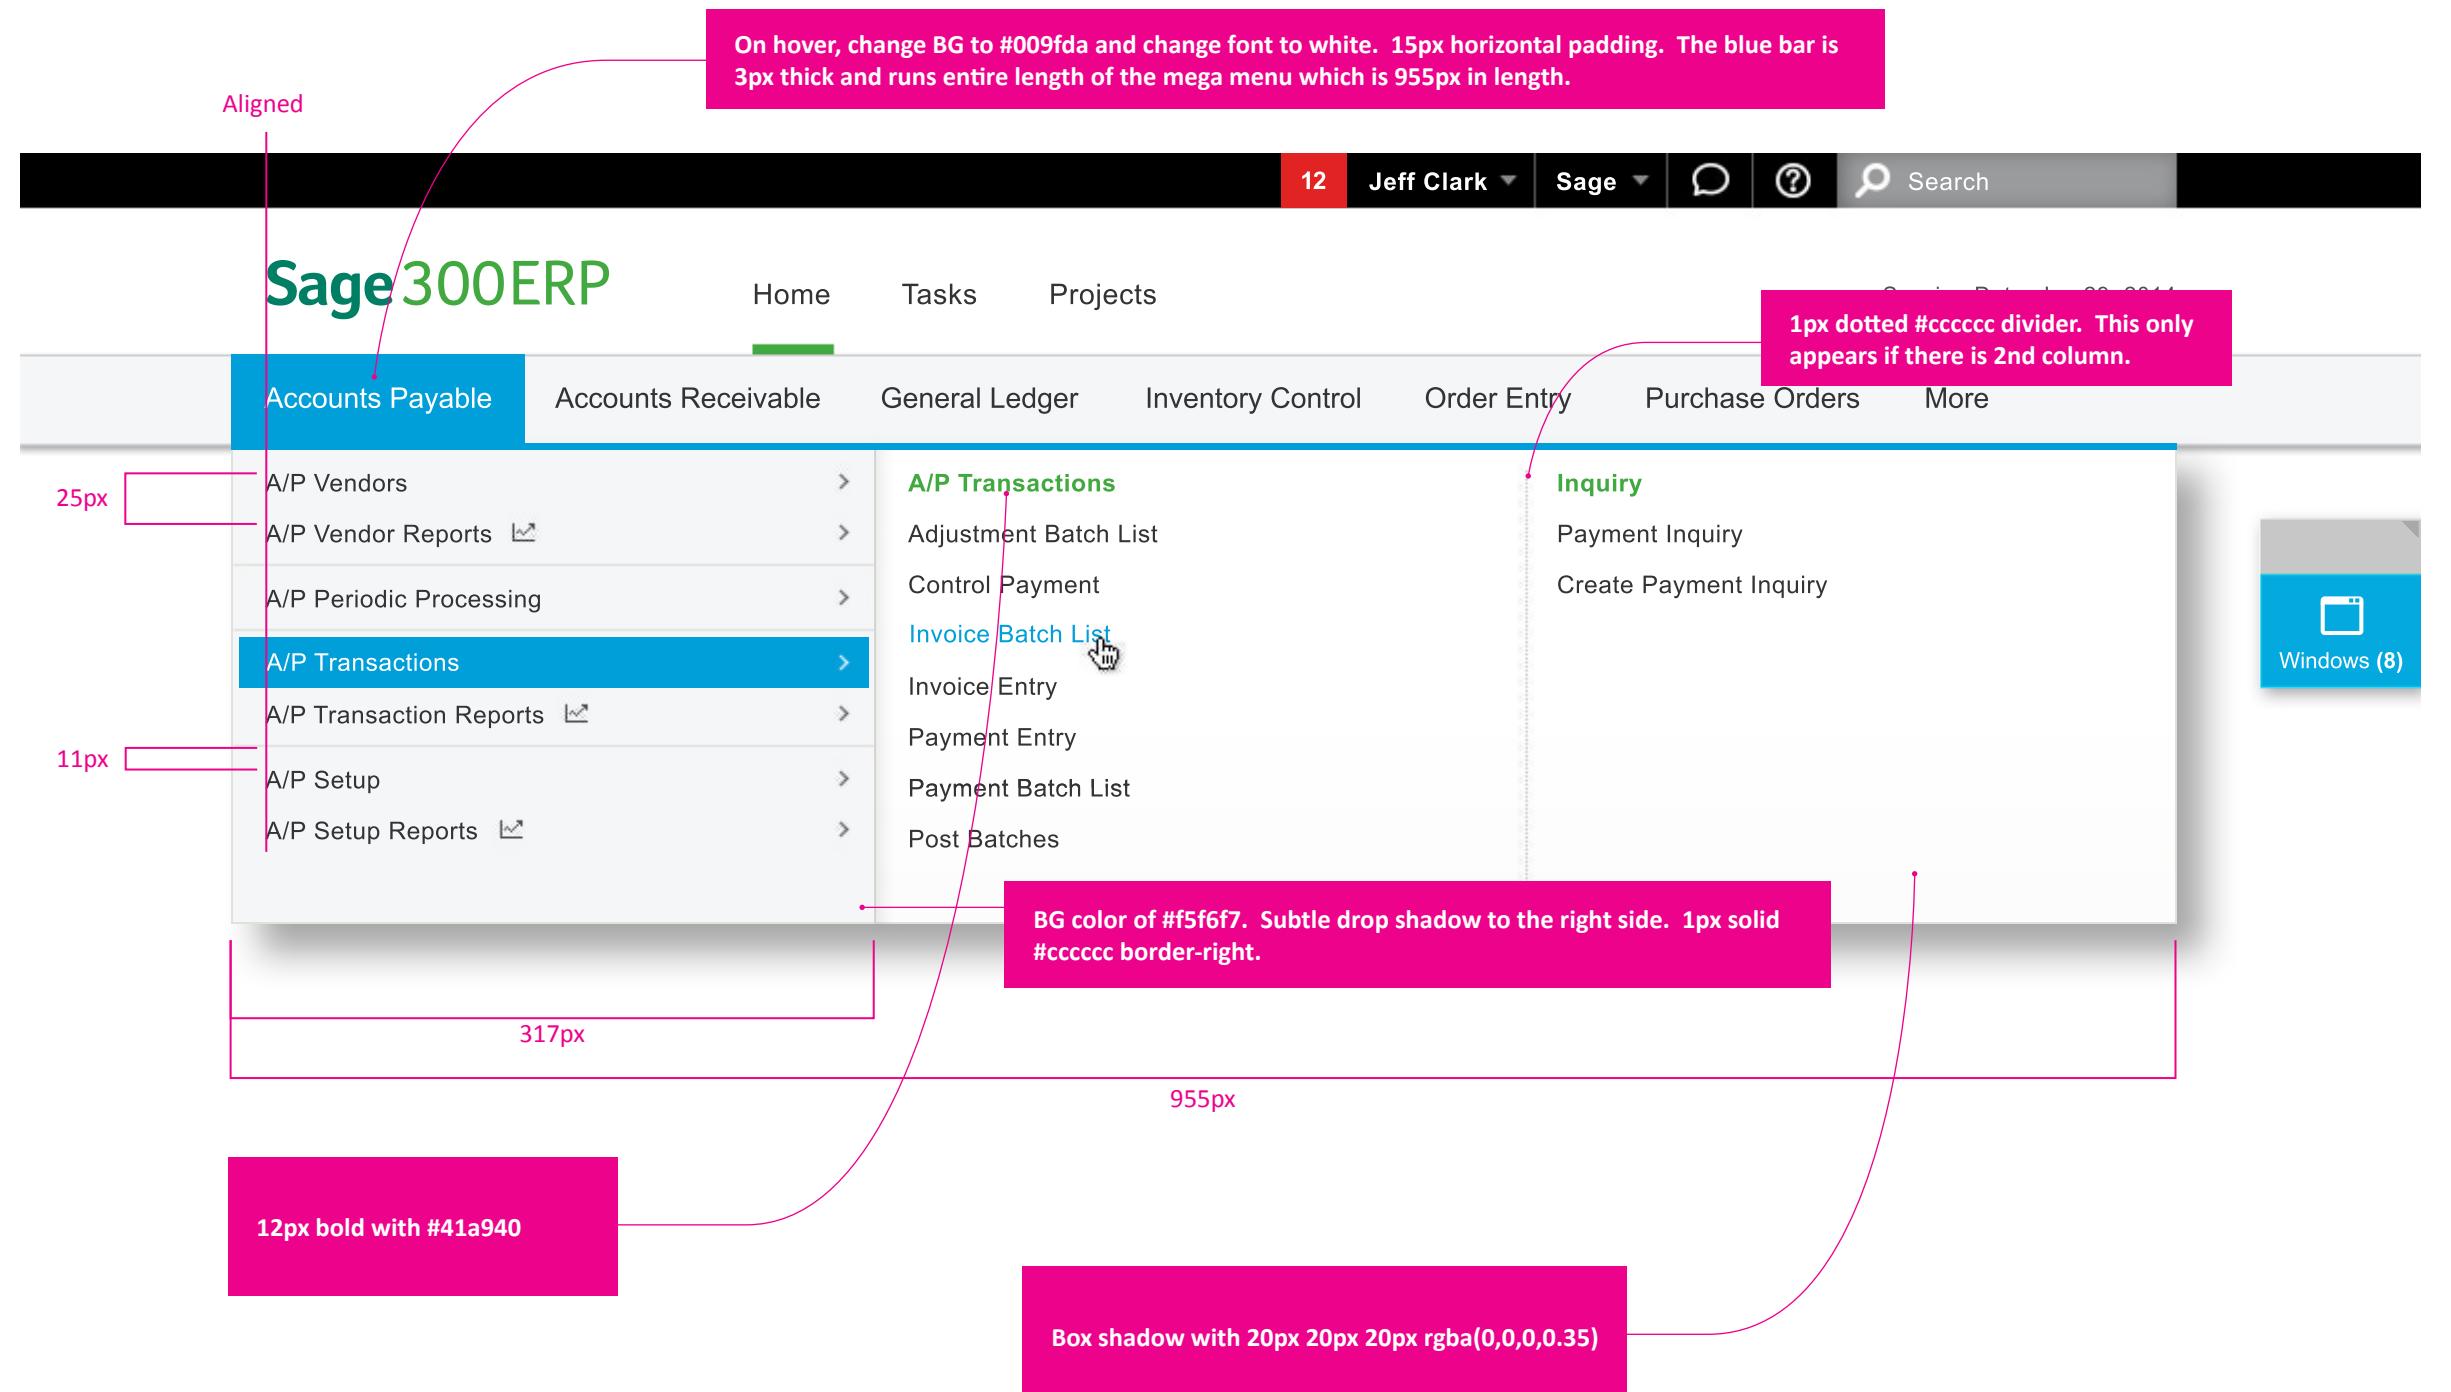

Implement HoverIntent function for the top mega menu.

The mega menu has a solid 1px #cccccc border all around except top. The top border is a solid 3px #009fd4.

The 1st tier subset menu in the mega menu is grouped into sub-sections with a solid 1px #cccccc line separating them.

The 2nd tier subset menu should be spread out and take two columns. Do not break a sub-section into two columns. Instead, increase the height of the mega menu.

The mega menu can have a different height per each top category depending on the length of content. Apply minimum height of 236px.

Continues...

RULES

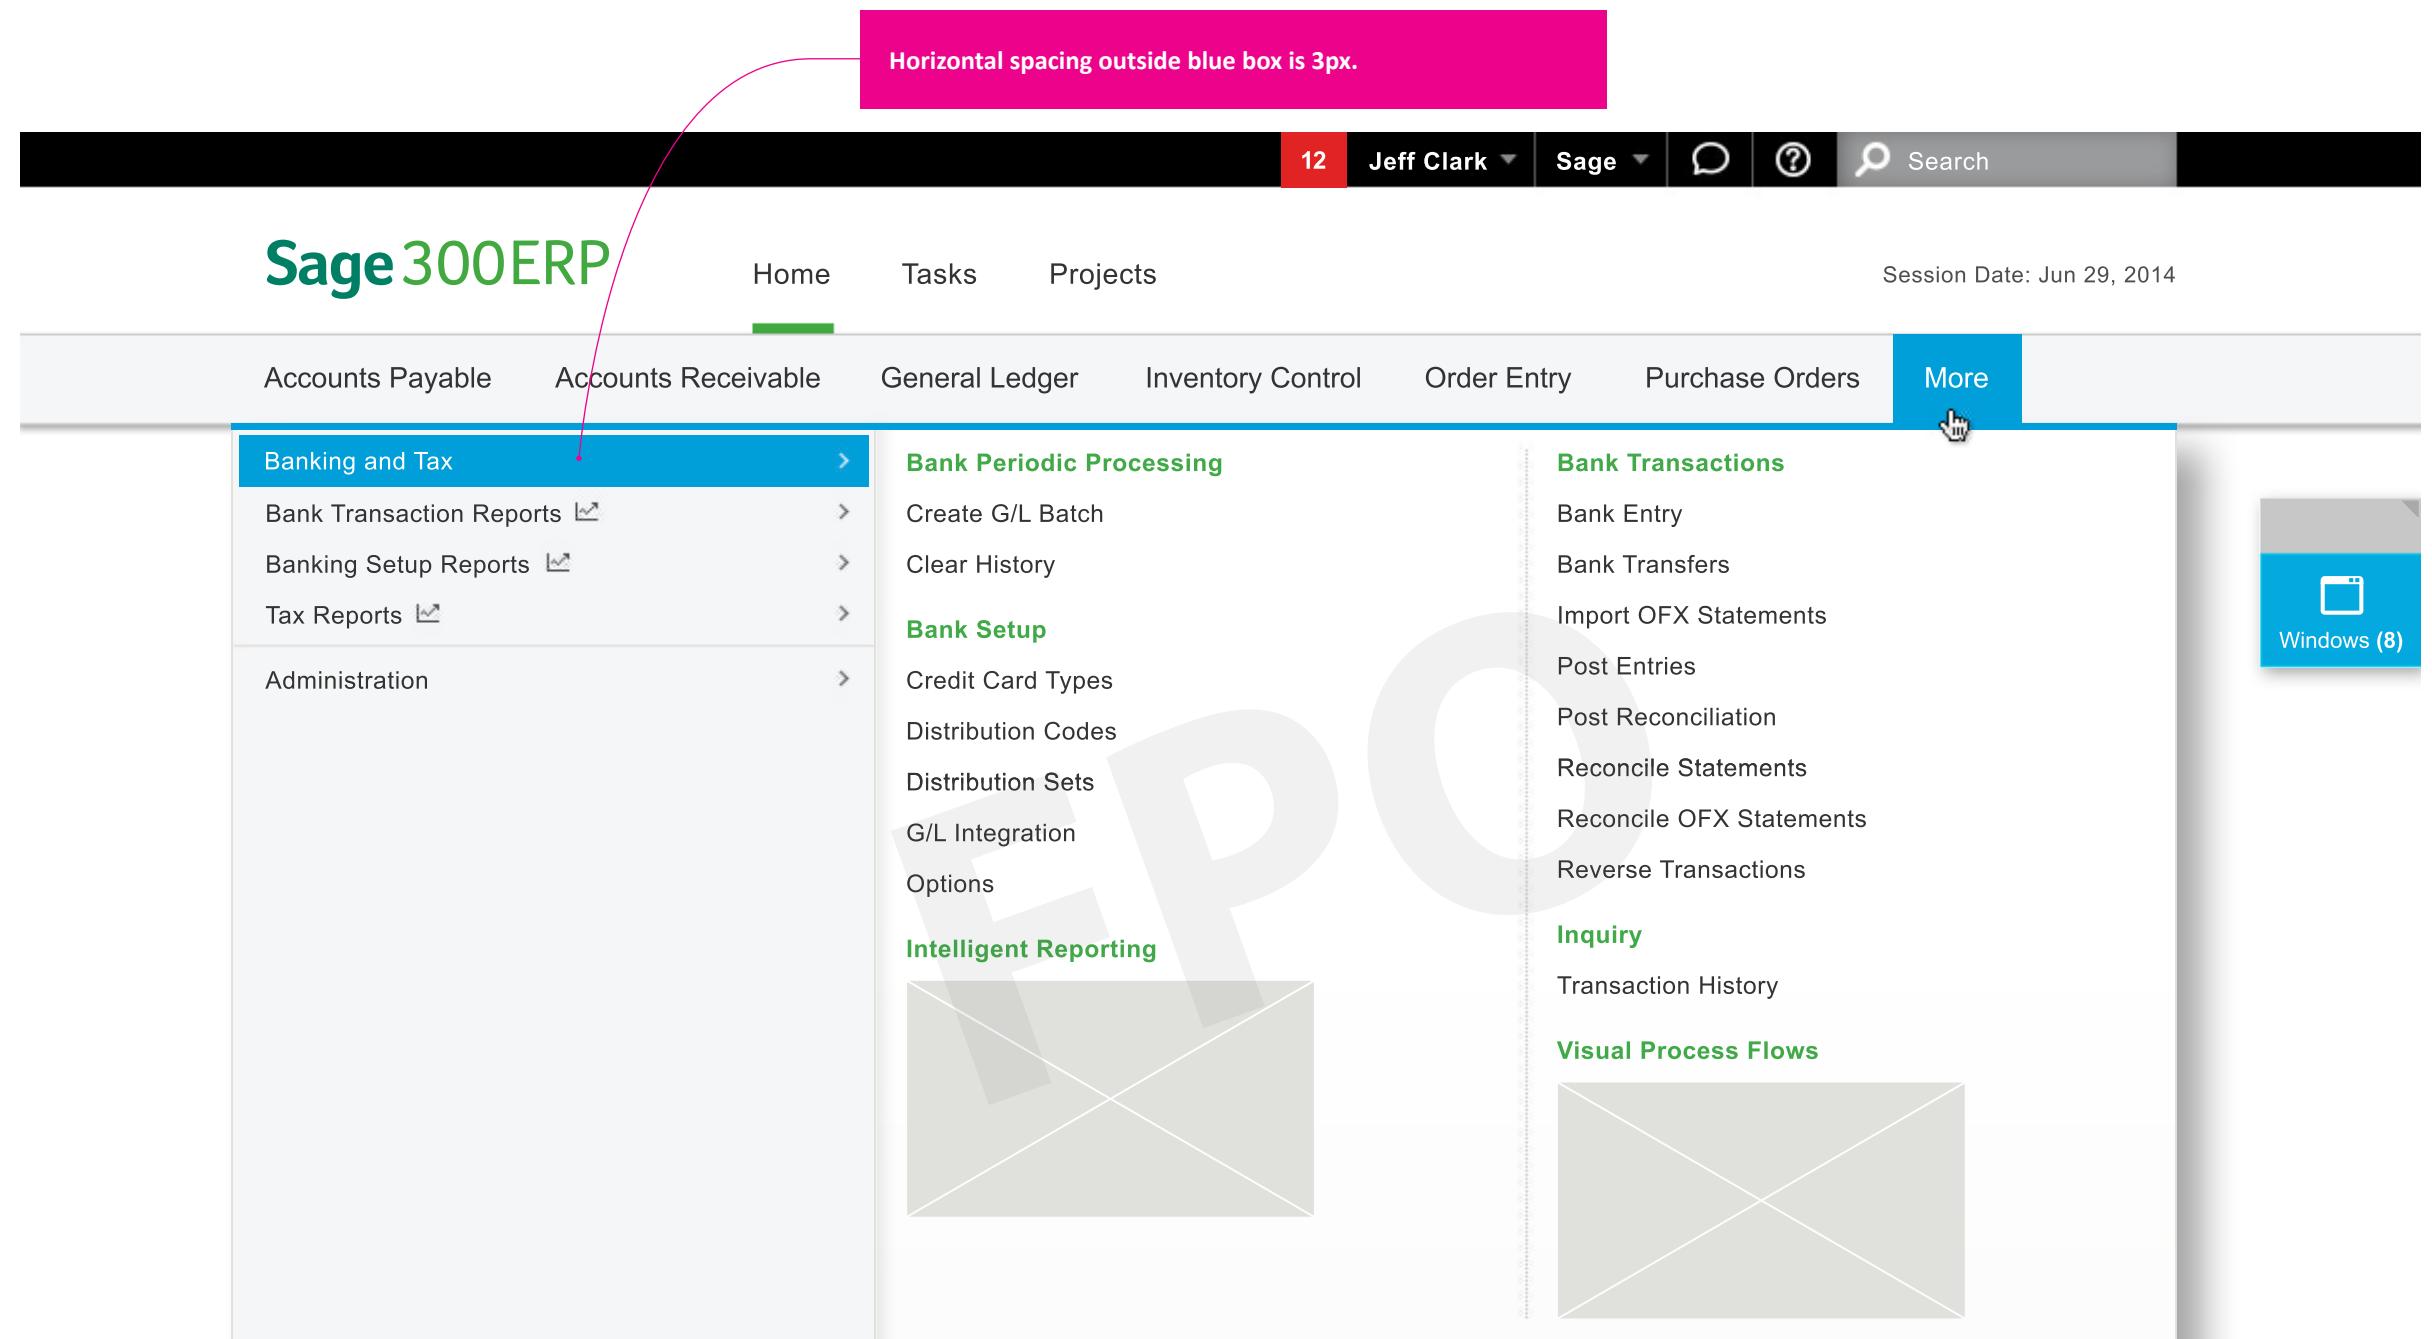

The mega menu is divided into 3 columns. The 1st column should always be the 1st tier subset menu.

The 2nd & 3rd columns should always be the 2nd tier subset menu.

For the exact dimension how the three columns are divided, refer to page 7.

In the 1st tier subset menu, use report icon for any menu item that contains word "reports".

Use normal text wrap if longer than the container box.

RULES

The side menu is always docked to the right edge of the browser window.

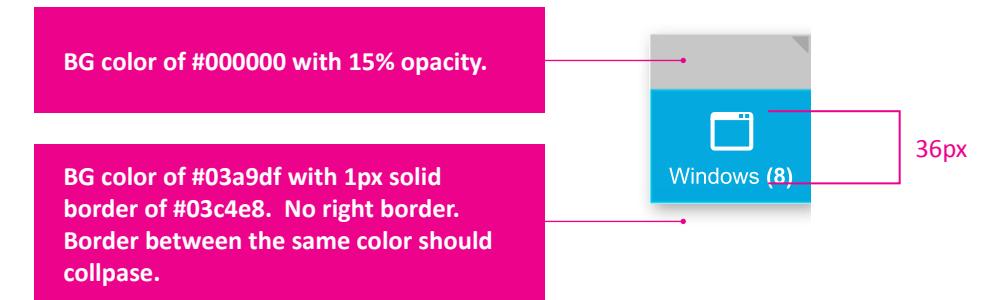

It can be dragged vertically up and down the right edge of the browser window to accomodate any user who have screen width of 1024px.

All buttons are exactly the same in dimesion.

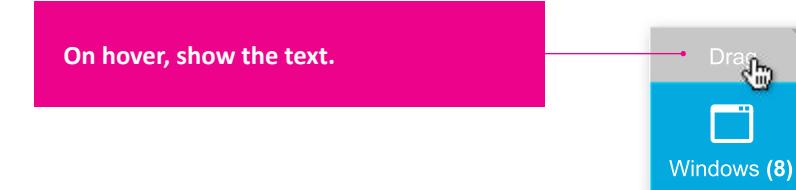

Borders are collapsed if the color of the borders are the same. For example, the border between task button and report button is collapsed into a single pixel height.

Animation is used for “added” notifications. Be sure to animate the entire box sliding in and out of the view behind the buttons. The content of the notification box should remain static through out the entire length of animation.

NORMAL STATE

HOVER STATE

WINDOWS ADDED

Window management system will automatically add windows for any open tasks and reports. When a new window is open, show the notification animation.

RULES

For better readability, the green color of the headings is slightly altered here. It's #58e457.

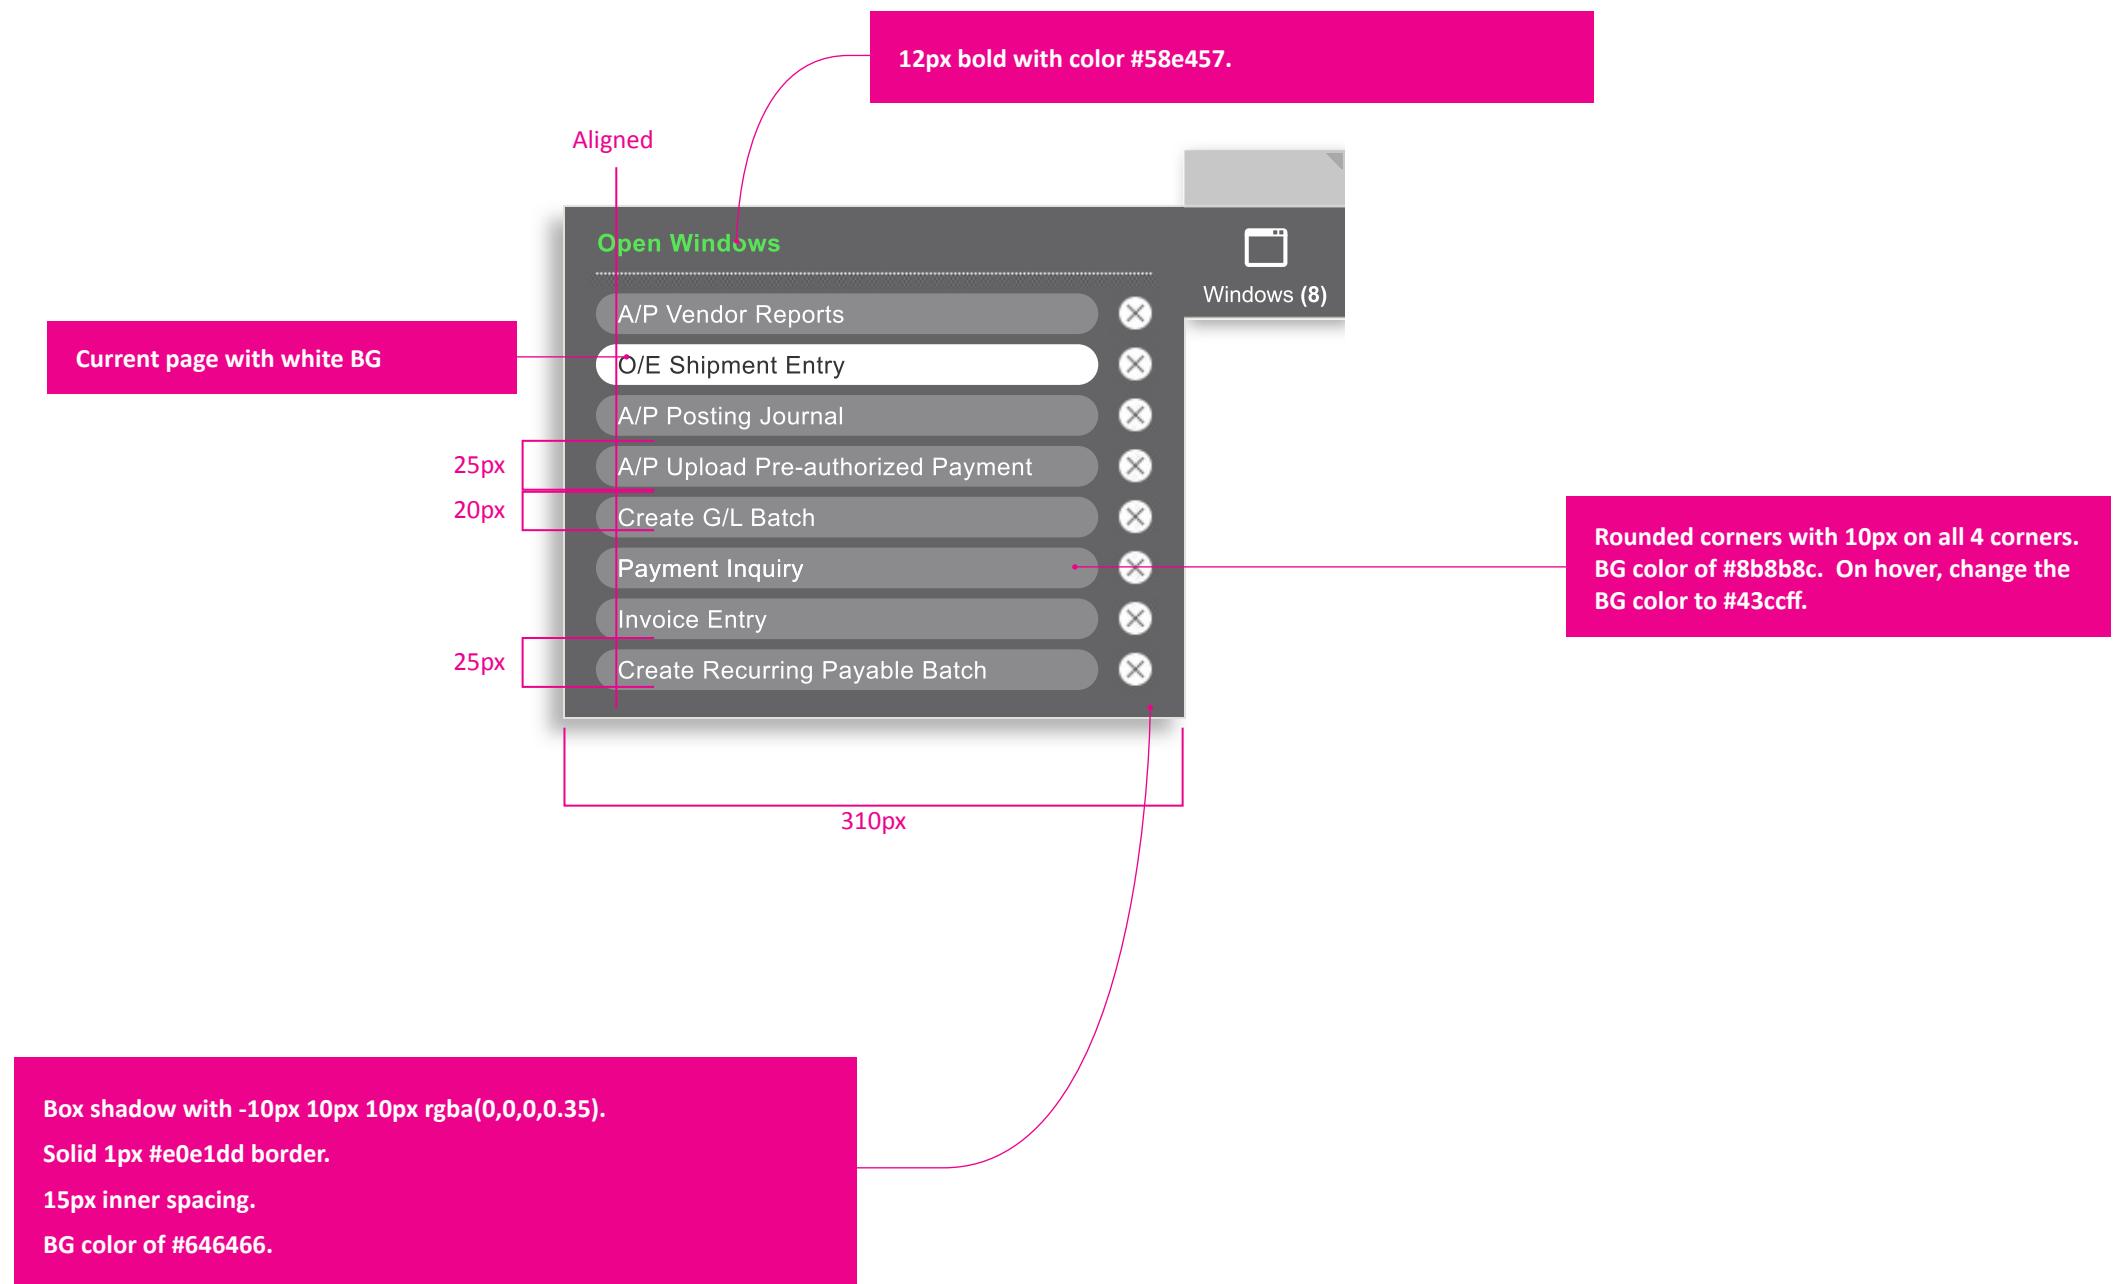

Do not use animation for the menu pop-over.

HoverIntent or similar plug-in should be implemented for better usability.

Use normal text wrap if longer than the container box.

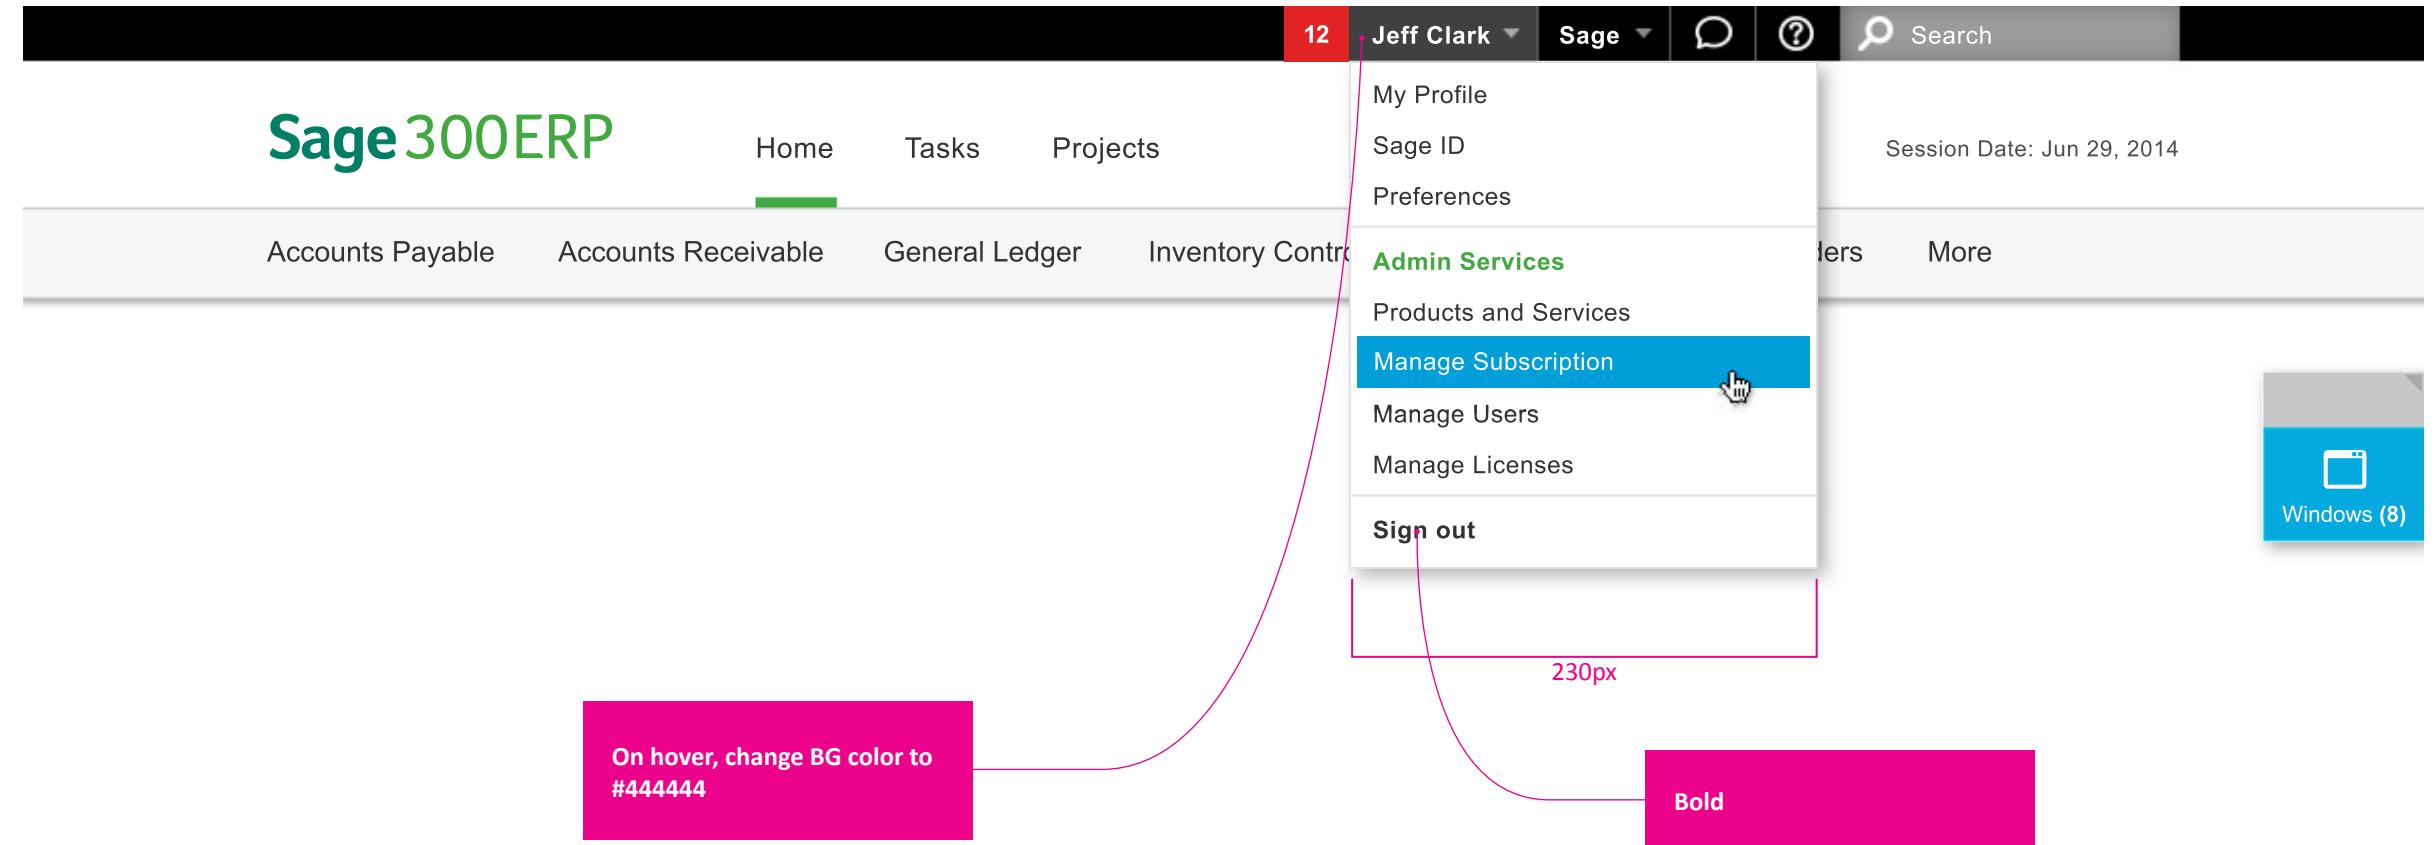

For white colored text, use #ffffff.

For black colored text, use #333333.

RULES

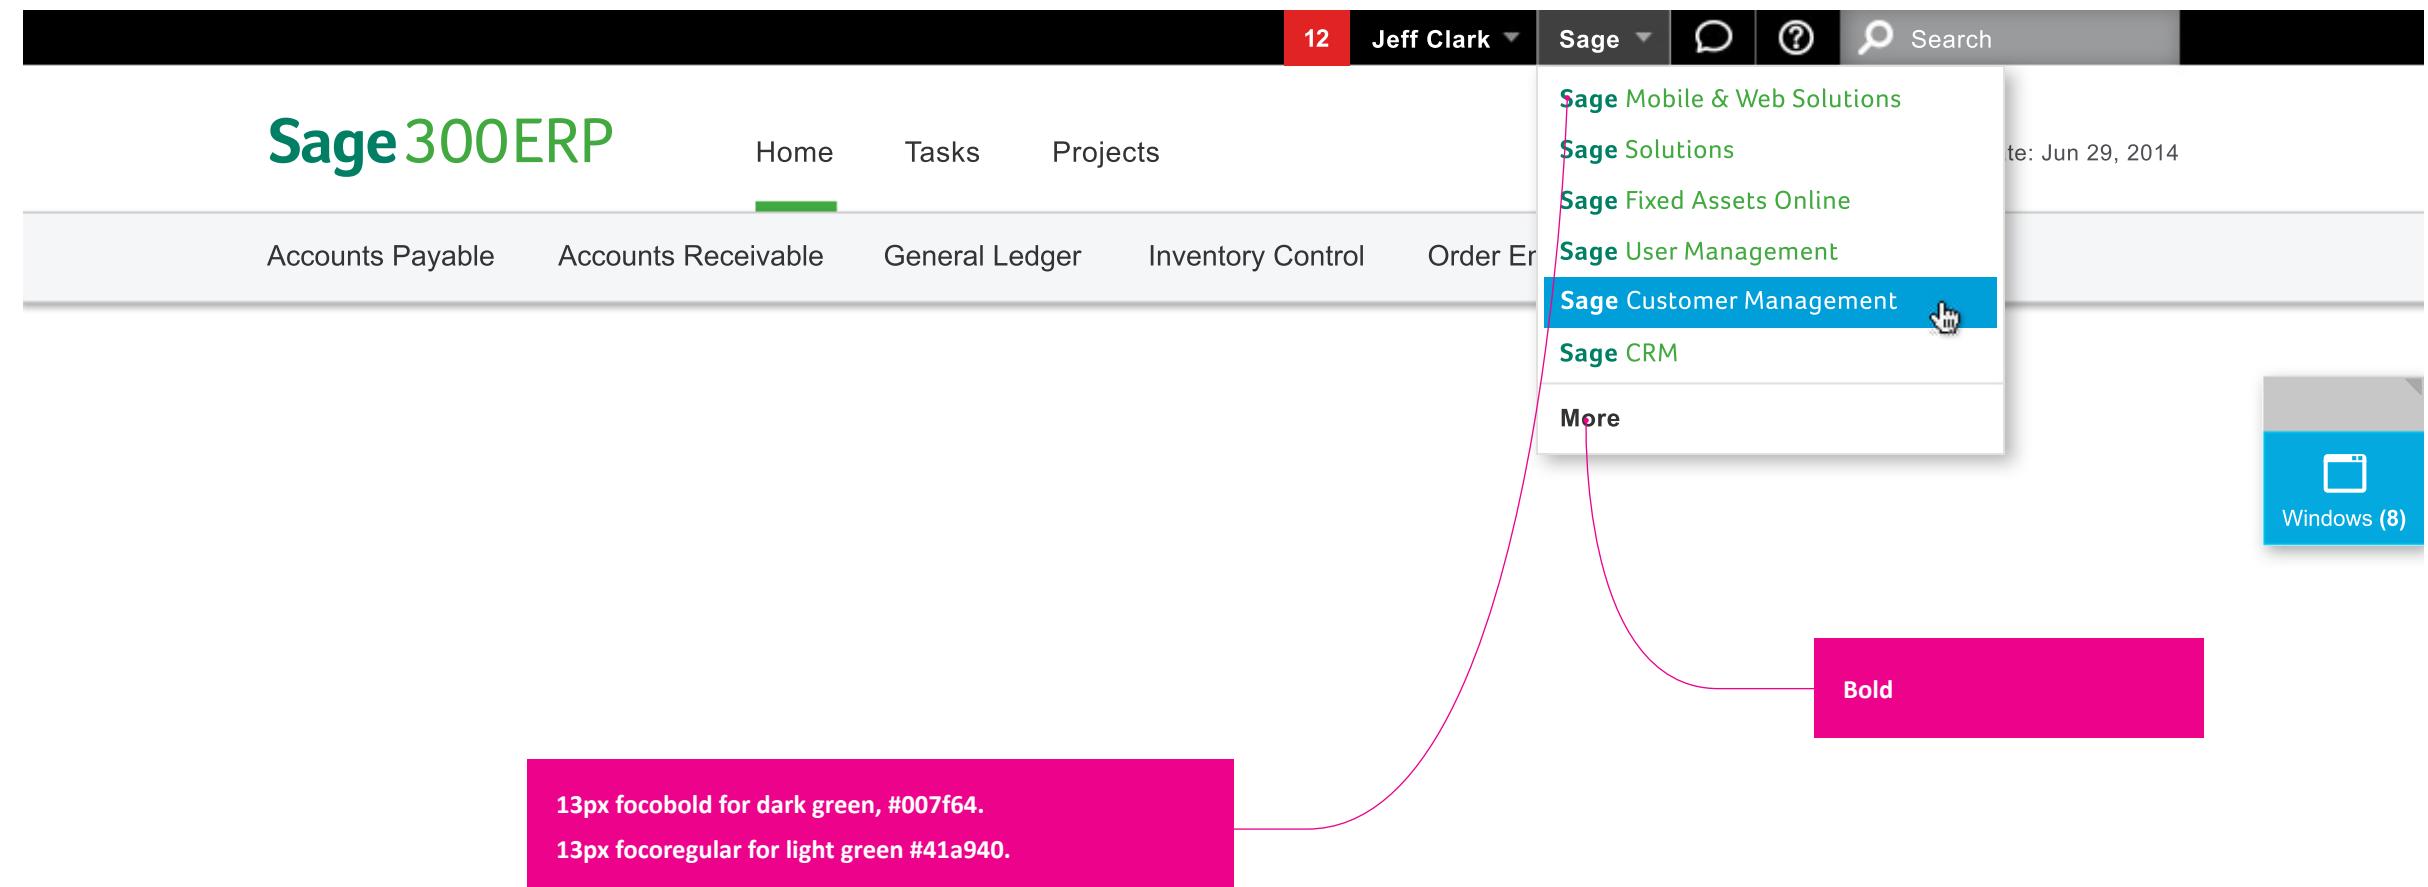

Styles are inherited from mega menu regarding font, spacing, color and etc.

RULES

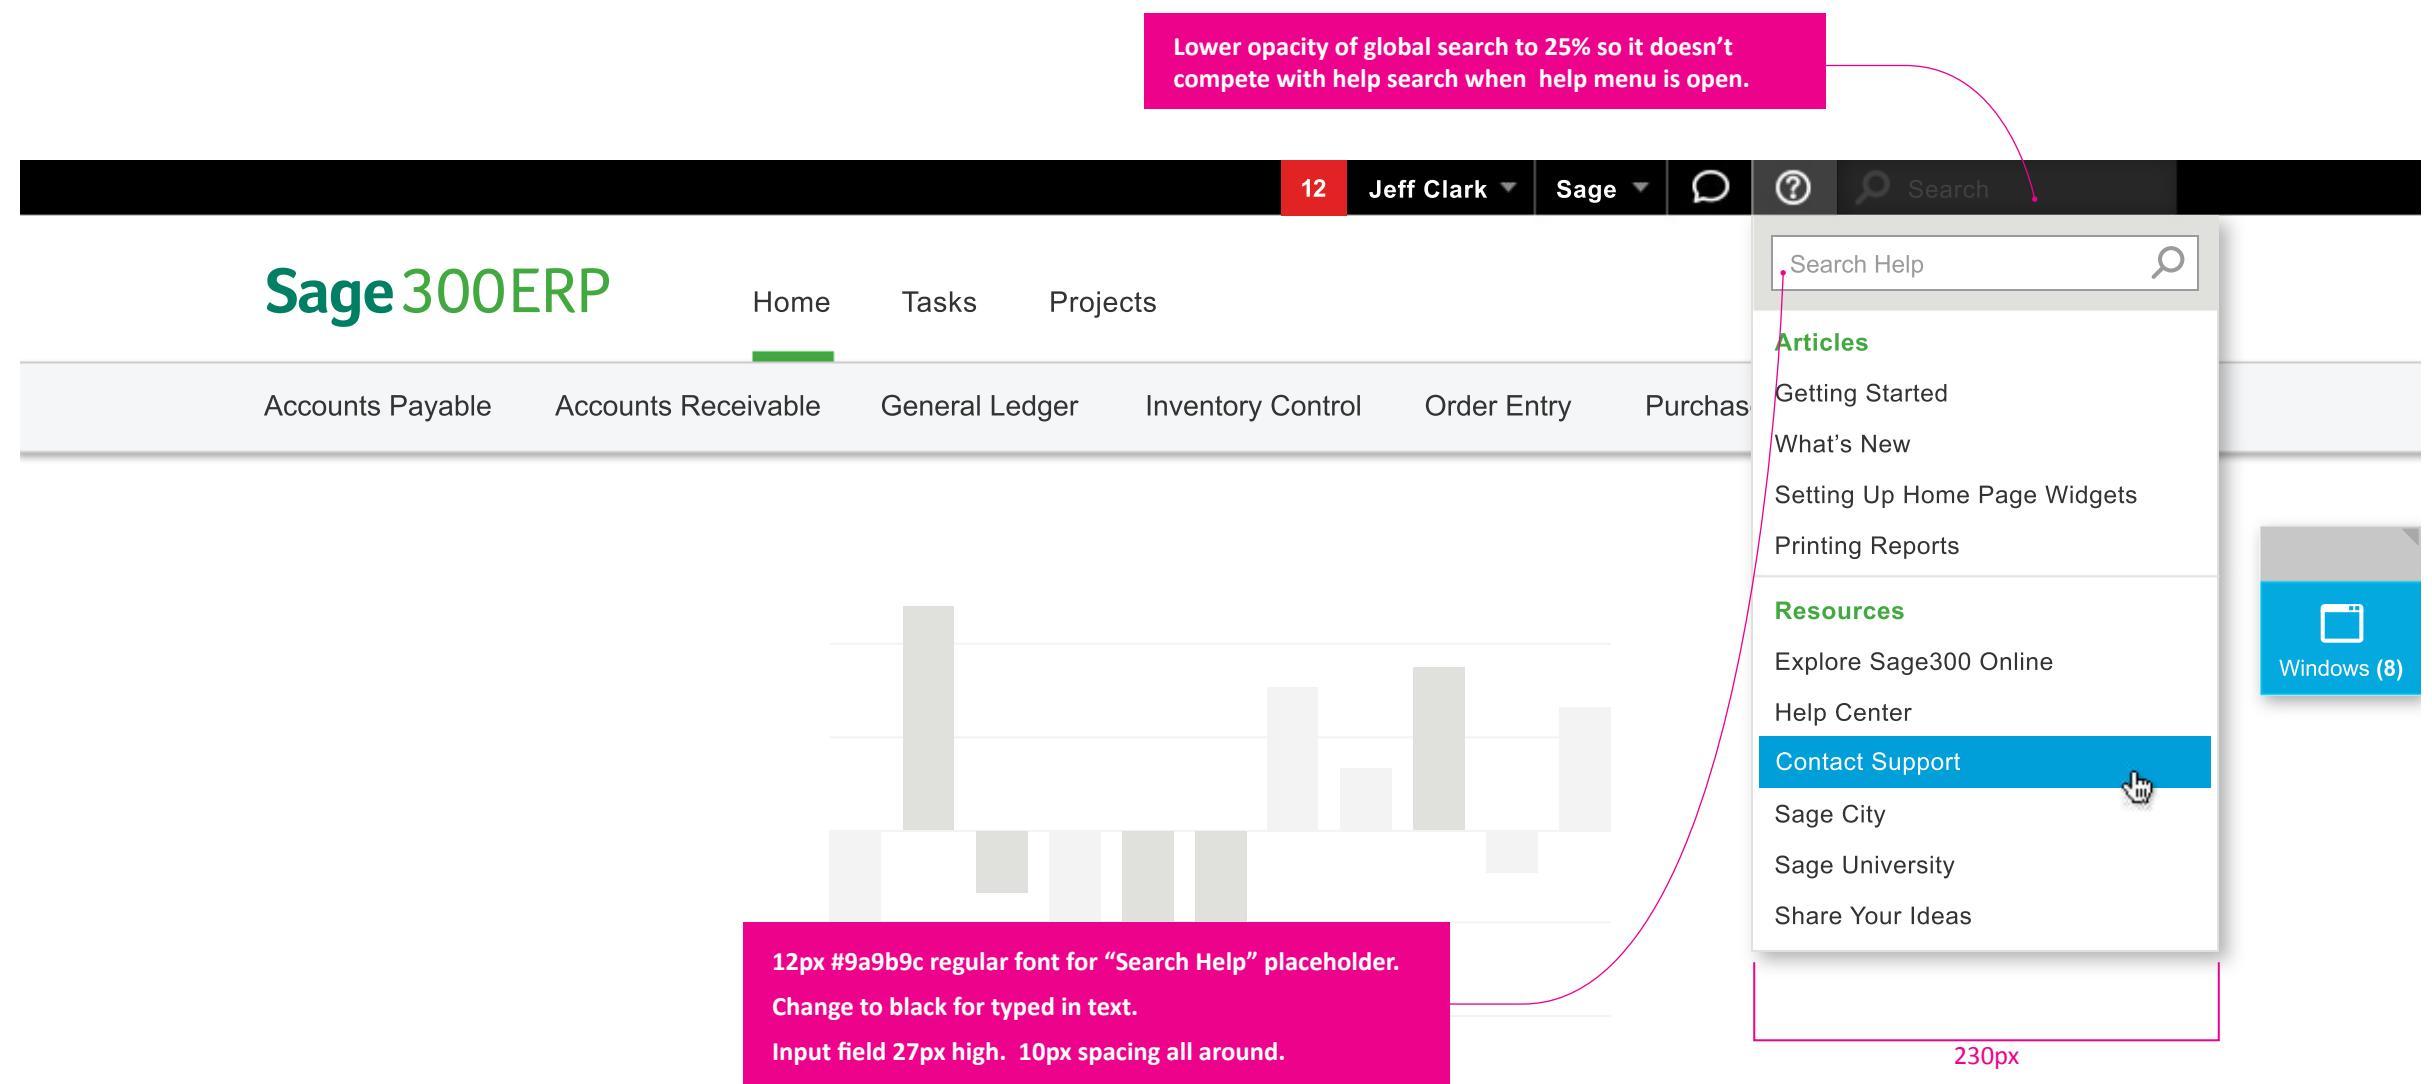

Use the same style as defined in Global Navigation > Account Management.

Only exception is the Sage product names. The font size should be 13px to compensate for difference in base font size between Arial and foco.

RULES

Use the same style as defined in Global Navigation > Account Management.

See into your data

Add and customize widgets to see key business data on your dashboard ➤

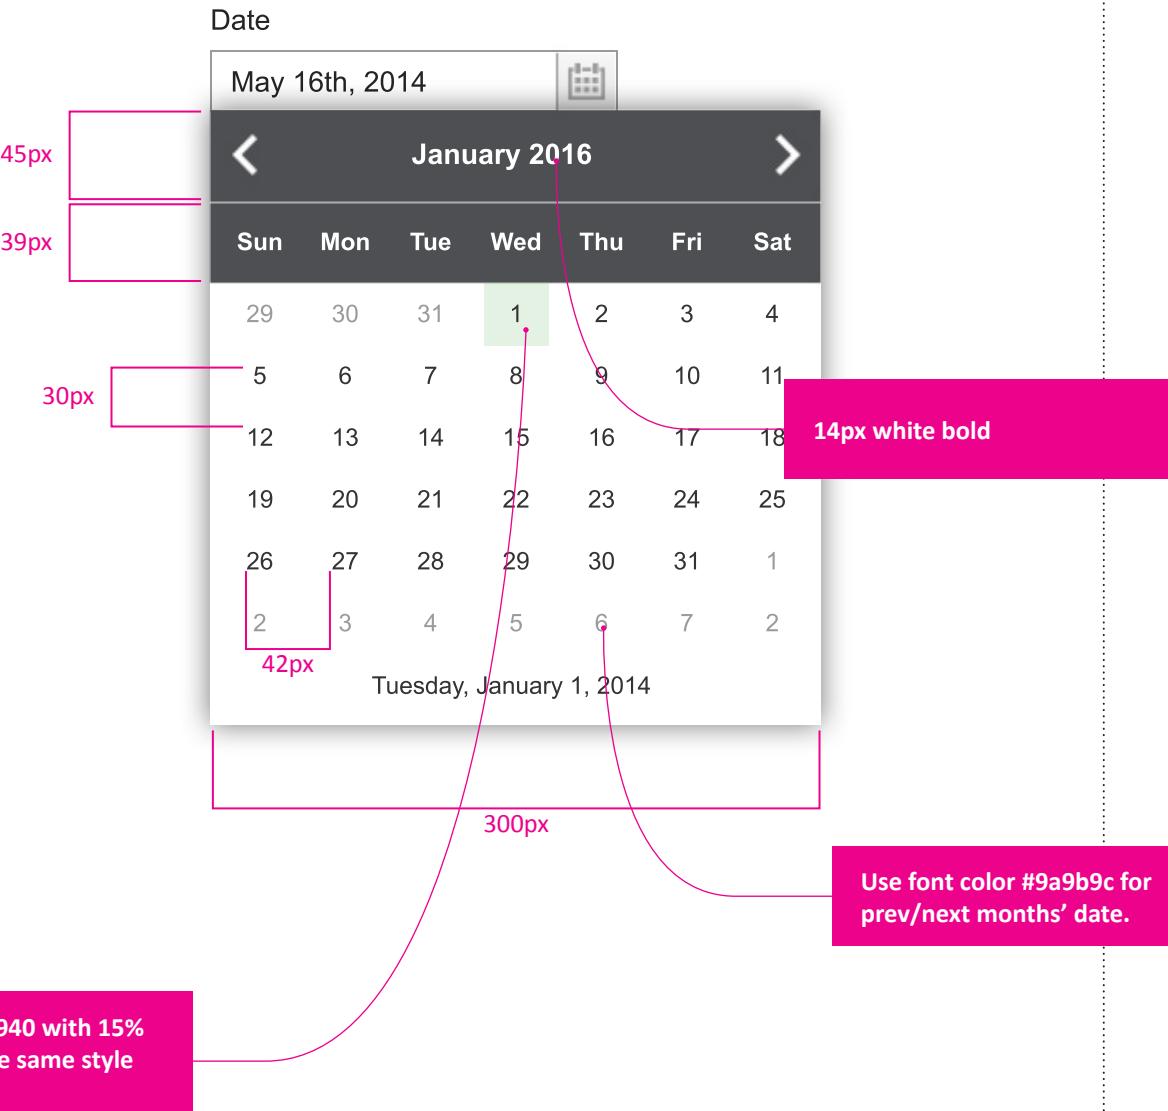

RULES

Use date picker for any date input fields.

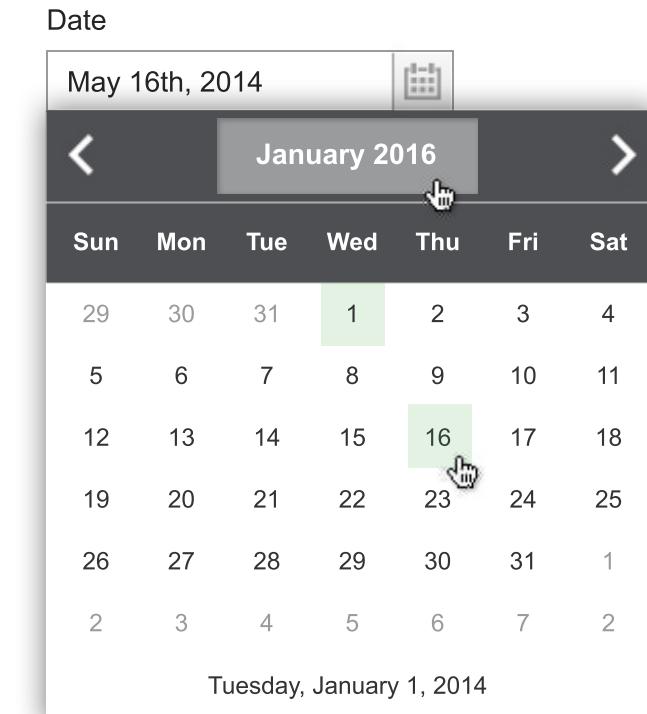

The date picker should appear when the field gets focus or when the button is clicked.

It should disappear when the field gets blur or when a date is picked.

NORMAL STATE

HOVER STATE

RULES

Use fiscal period picker for any fiscal period input fields.

The fiscal period picker should appear when the field gets focus or when the button is clicked.

It should disappear when the field gets blur or when a fiscal period (row) is picked.

Styles are mostly shared with date picker.

When the year in the header is clicked, bring out regular drop down list to select different years.

The arrows in the header increment or decrement year value.

Selected date has background color of #41a940 with 15% opacity. Use the same style for hover state.

RULES

The style applies for all configuration setting pop-over windows.

In order to avoid “box inside box”, the box for tabbed content has no horizontal outside margin and side borders are removed. Otherwise, 20px spacing rule applies around tab itself and buttons at the bottom.

In order to increase readability and hierarchy flow, I've increased the height of the pop-over window heading and the tab heading. In addition, font size is increased to match the bigger box.

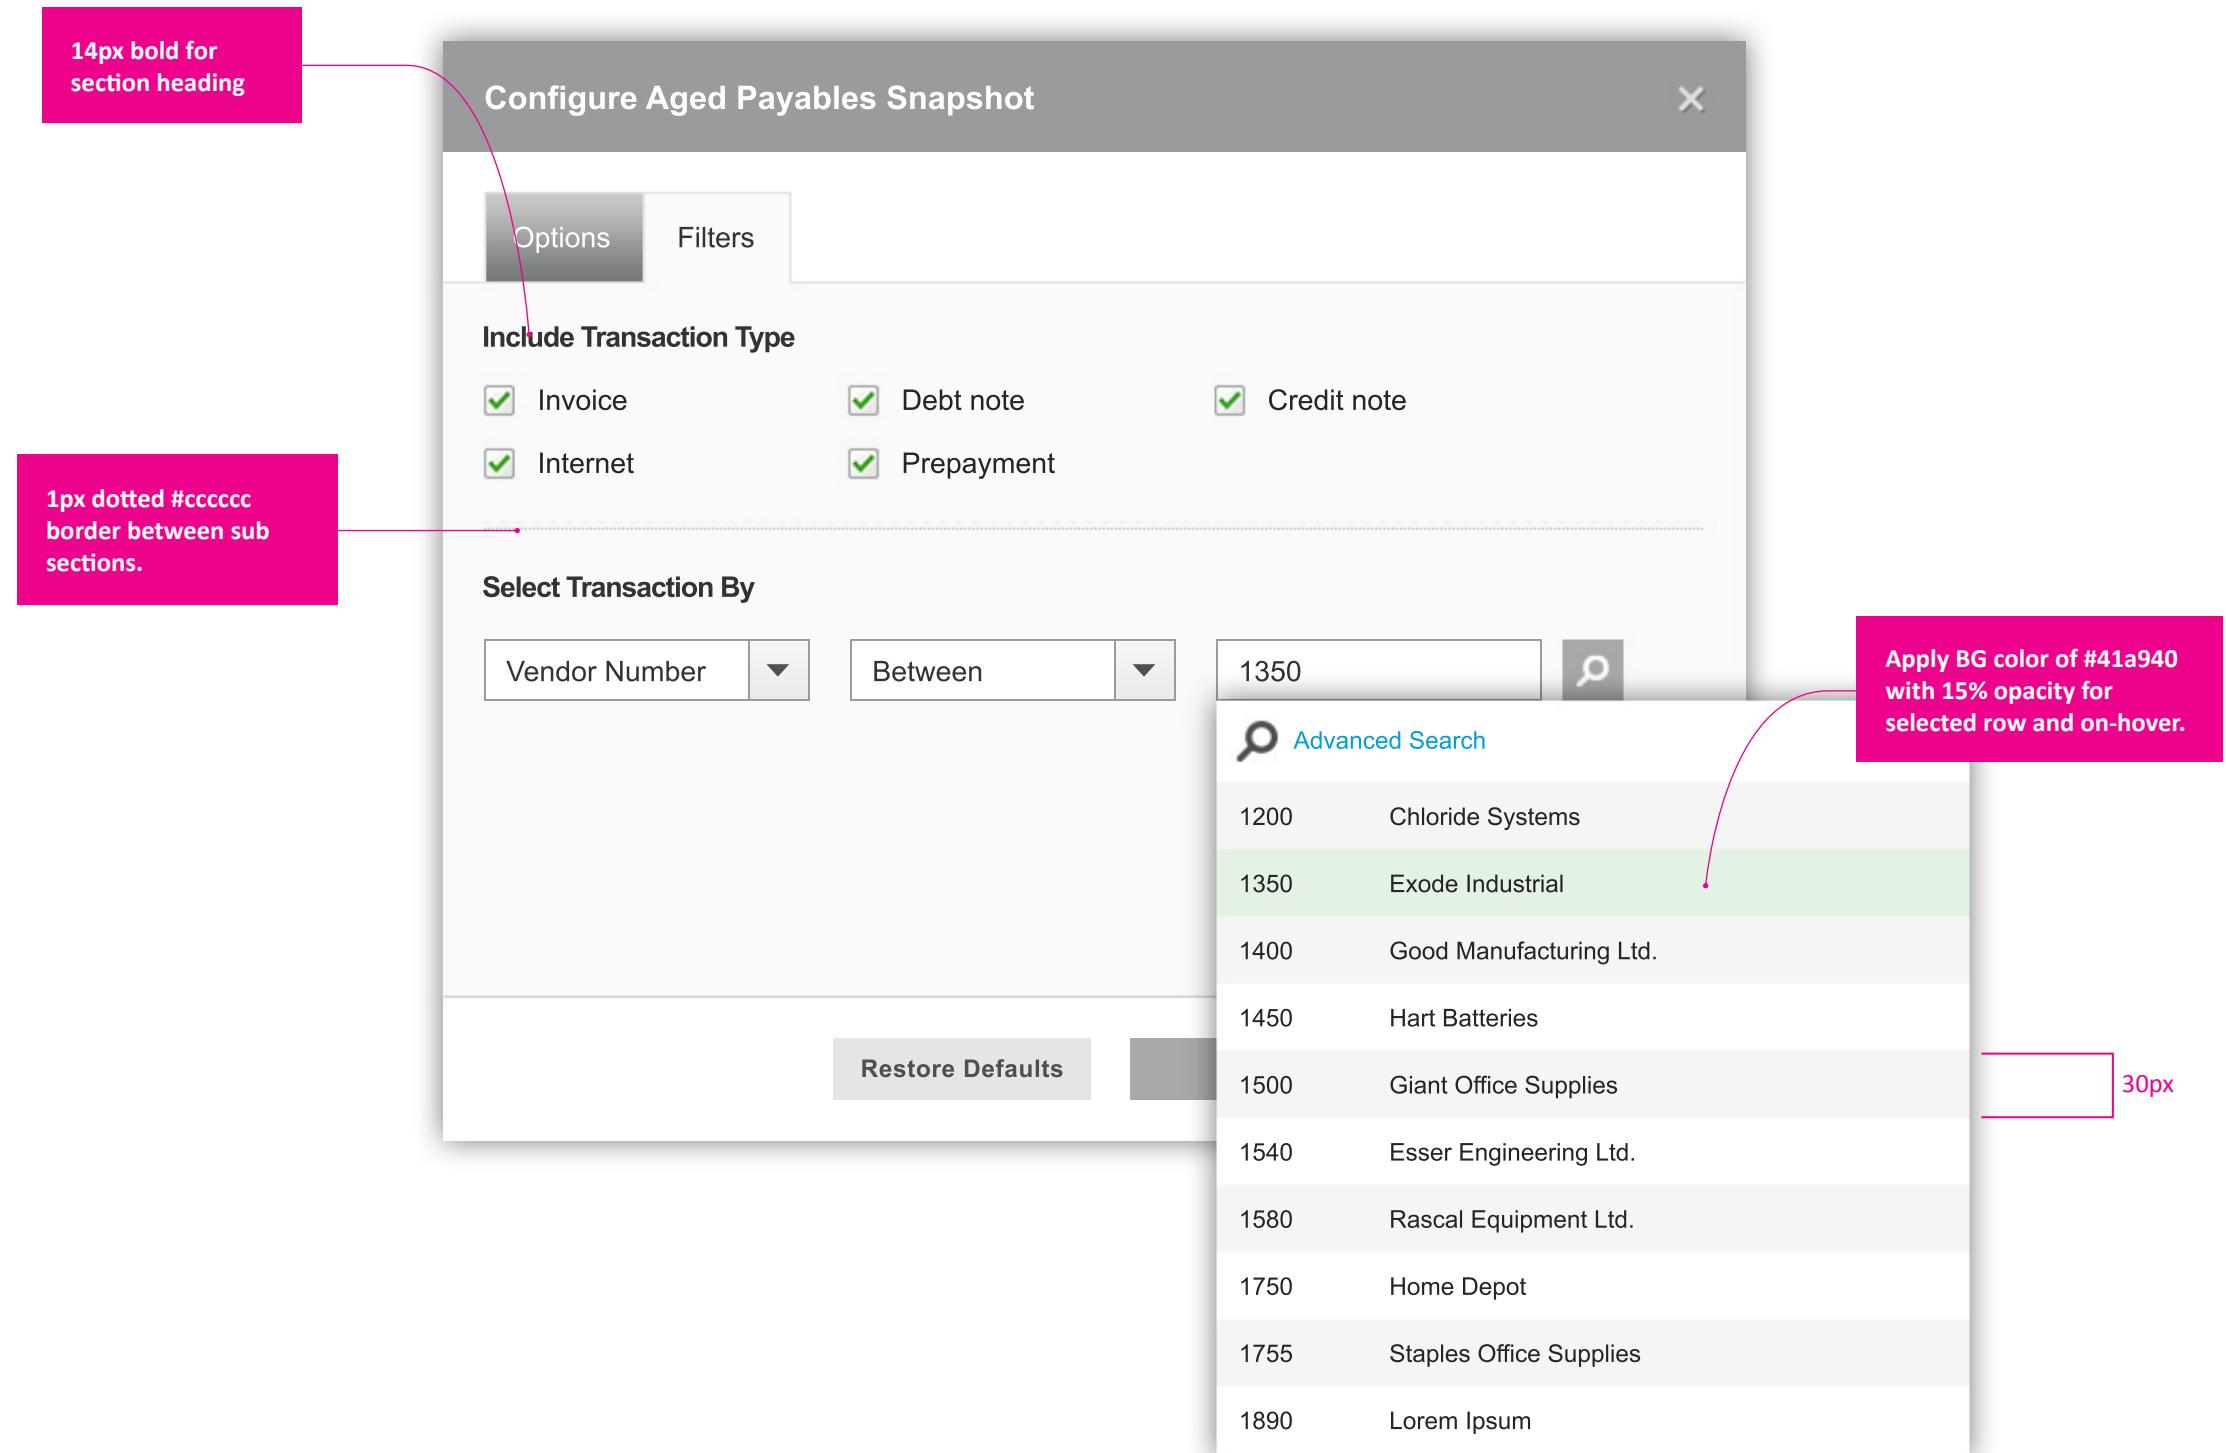

RULES

With frequent use of date picker and quick finder, the additional pop-over windows from those widgets should appear on top of configuration setting window without shifting anything in the background.

DO NOT introduce two vertical scroll bars. The browser scroll bar should be the only vertical scroll bar.

Buttons are fixed at the bottom of the window.

For series of checkboxes with short label, apply equal width to lay them out.

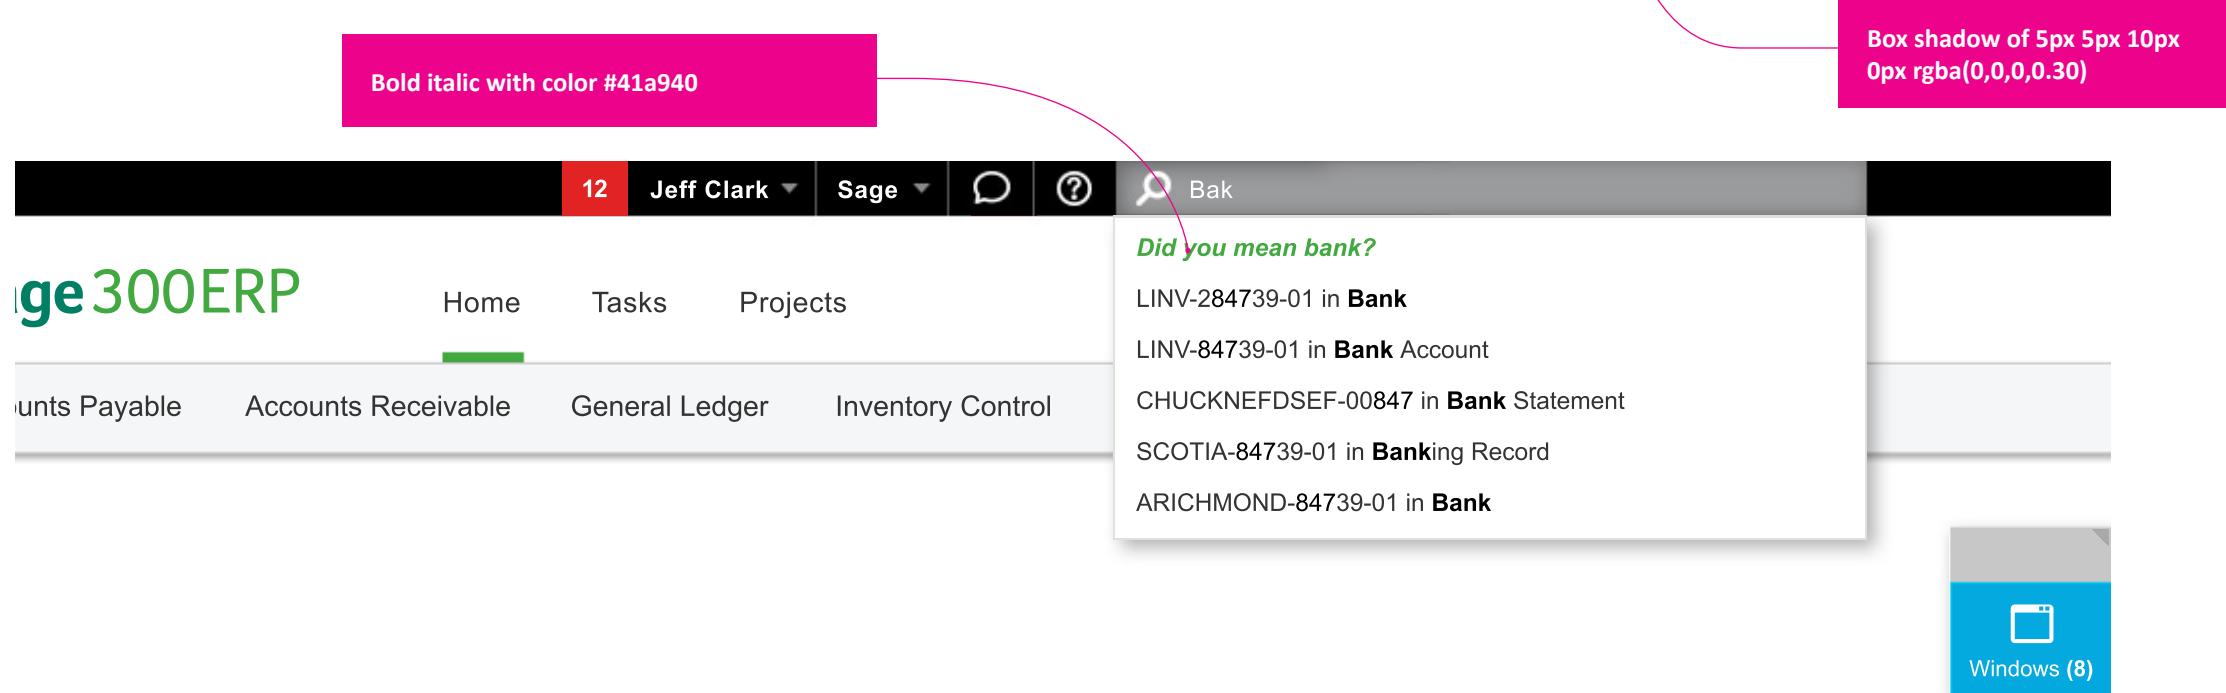

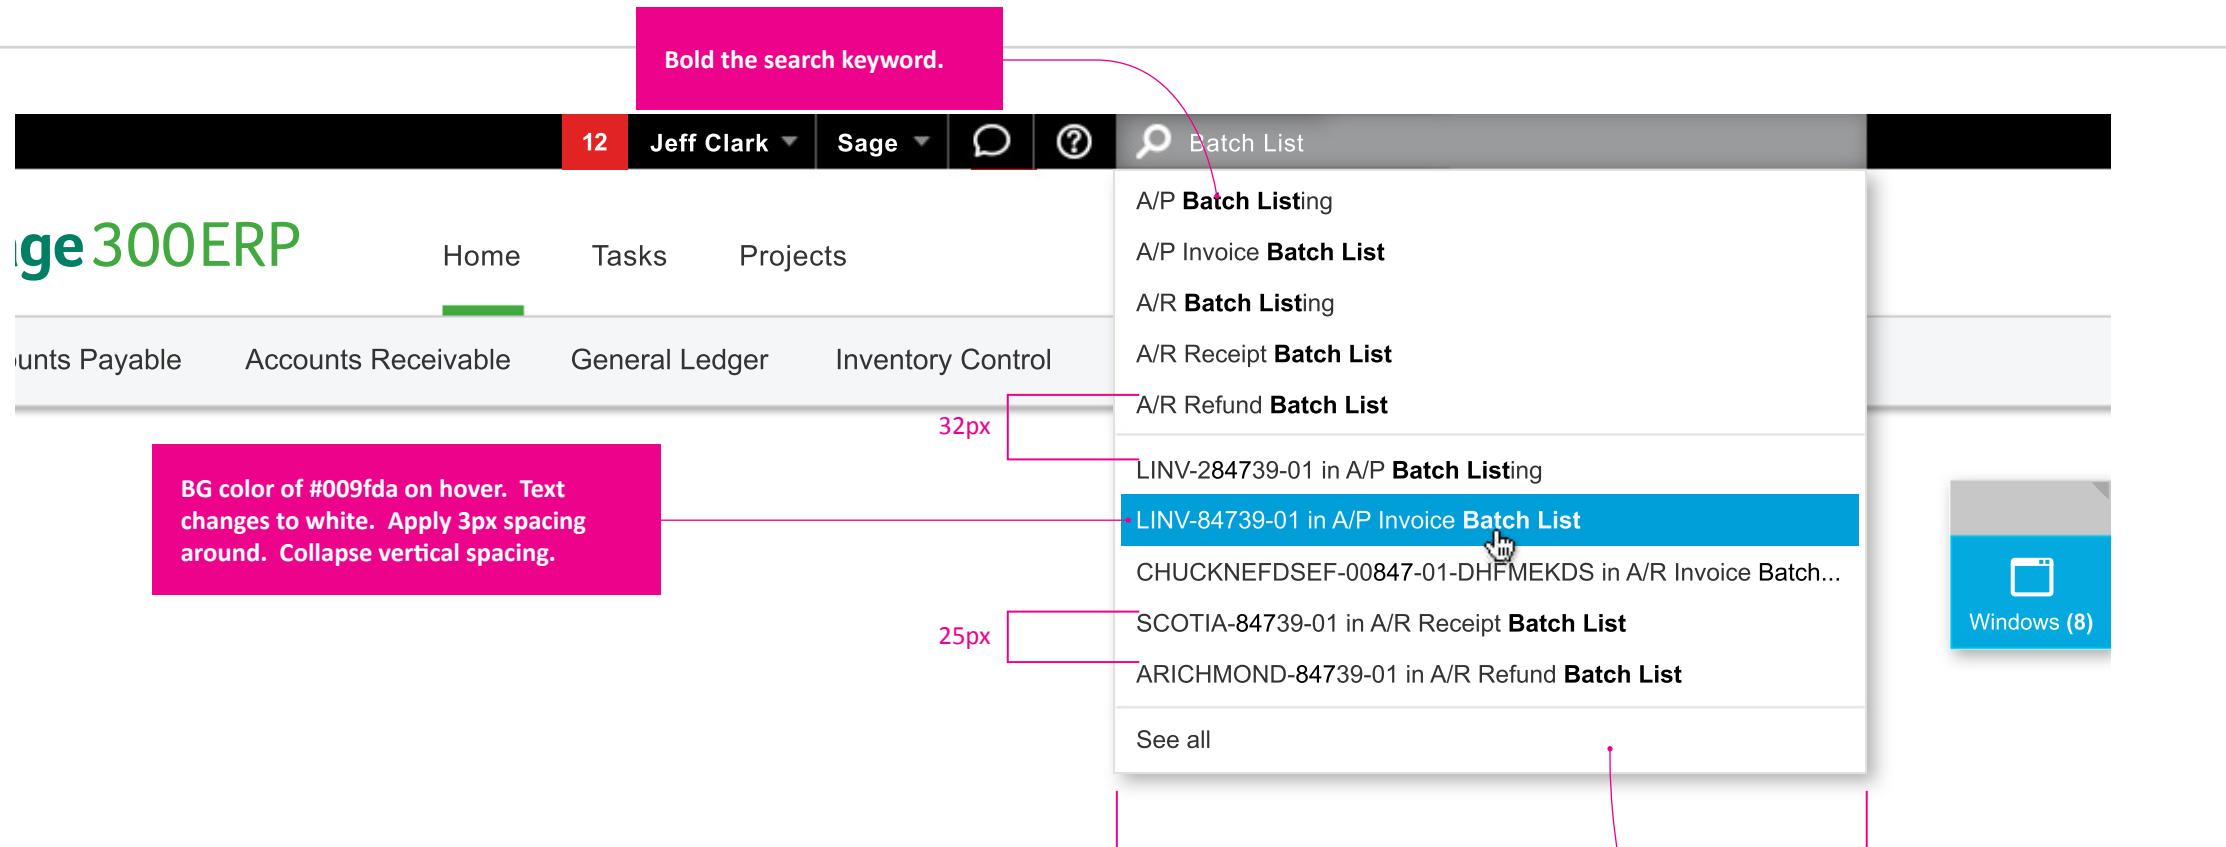

RULES

Search input box has following spec.

- BG color: #9a9b9c
- Box shadow: inset 3px 3px 12px 0px rgba(0,0,0,0.35)
- Font: 12px white

On focus of the search input field, the width of the search box should increase from 170px to 370px with 0.2s animation.

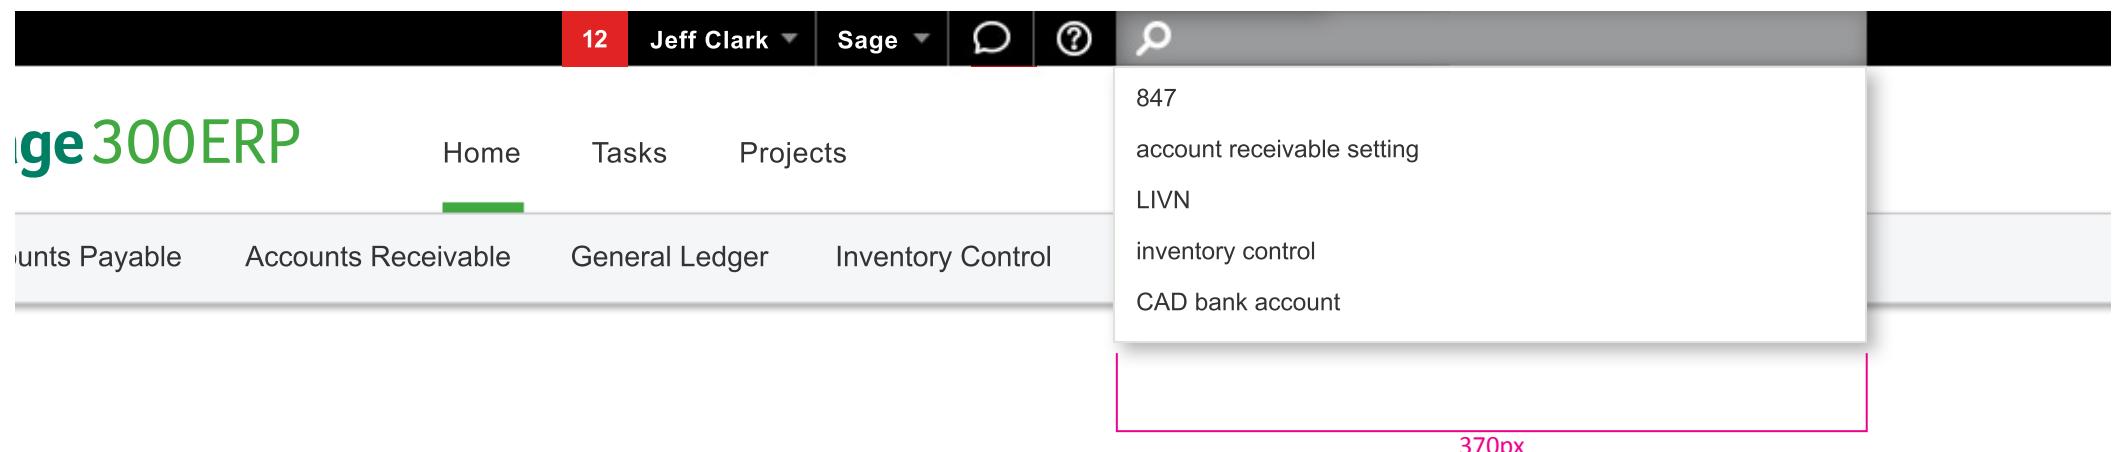

The search suggestion box should be 370px in width and flexible in height.

RULES

Search history kicks in when the search input box gets focus and no text is keyed in.

The style should inherit from the search autocomplete.

RULES

Apply standard 20px spacing between listings.

The screenshot shows the CNA 2.0 Search Listing interface. At the top, there's a navigation bar with 'JOERP' in green, 'Home', 'Tasks', 'Projects', and a session date of 'Jun 29, 2014'. Below the navigation is a horizontal menu with 'Accounts Payable', 'Accounts Receivable', 'General Ledger', 'Inventory Control', 'Order Entry', 'Purchase Orders', and a 'More' option. A pink box highlights the 'JOERP' logo with the text '#41a940 font color.' A pink arrow points from the 'JOERP' box to the 'Search Results' heading. The main area displays search results for '847' with a total of 49 results. The results are listed in a grid-like structure with horizontal and vertical spacing. A pink box highlights the '24px bold H1' for the search results heading. Another pink box highlights the '6px margin between block elements within a listing.' A pink arrow points from the '6px margin' box to the vertical space between the first two result items. A pink box highlights the 'Sort by Relevance' dropdown. To the right, there are two sidebar sections: 'Recent Tasks' and 'Recent Reports'. The 'Recent Tasks' sidebar has a header 'Recent Tasks' with a checkmark icon, followed by a list of tasks: 'O/E Shipment Entry', 'A/P Posting Journal', 'A/P Upload Pre-authorized Payment', 'Create G/L Batch', 'Payment Inquiry', and 'Invoice Entry'. A pink box highlights the '14px bold for the heading. BG color of #f5f6f7 with 1px border of #e0e1dd.' for the sidebar header. A pink arrow points from this box to the 'Recent Tasks' header. The 'Recent Reports' sidebar has a header 'Recent Reports' with a chart icon, followed by a list of reports: 'O/E Shipment Entry', 'A/P Posting Journal', 'A/P Upload Pre-authorized Payment', 'Create G/L Batch', 'Payment Inquiry', and 'Invoice Entry'. A pink box highlights the '42px' height of the sidebar header. A pink arrow points from this box to the 'Recent Reports' header. A pink box highlights the '14px regular with standard link color of #009fd4. Bold the search keywords.' for the search results links. A pink arrow points from this box to the first result item. A pink box highlights the '20px' vertical spacing between the first two result items. A pink box highlights the '25px' horizontal spacing between the second and third result items. A pink box highlights the '50px' vertical spacing between the third and fourth result items. A pink box highlights the '700px' width of the main content area. A pink box highlights the '220px' width of the sidebar area.

#41a940 font color.

Relevance

45px including border

RULES

Horizontal spacing rules

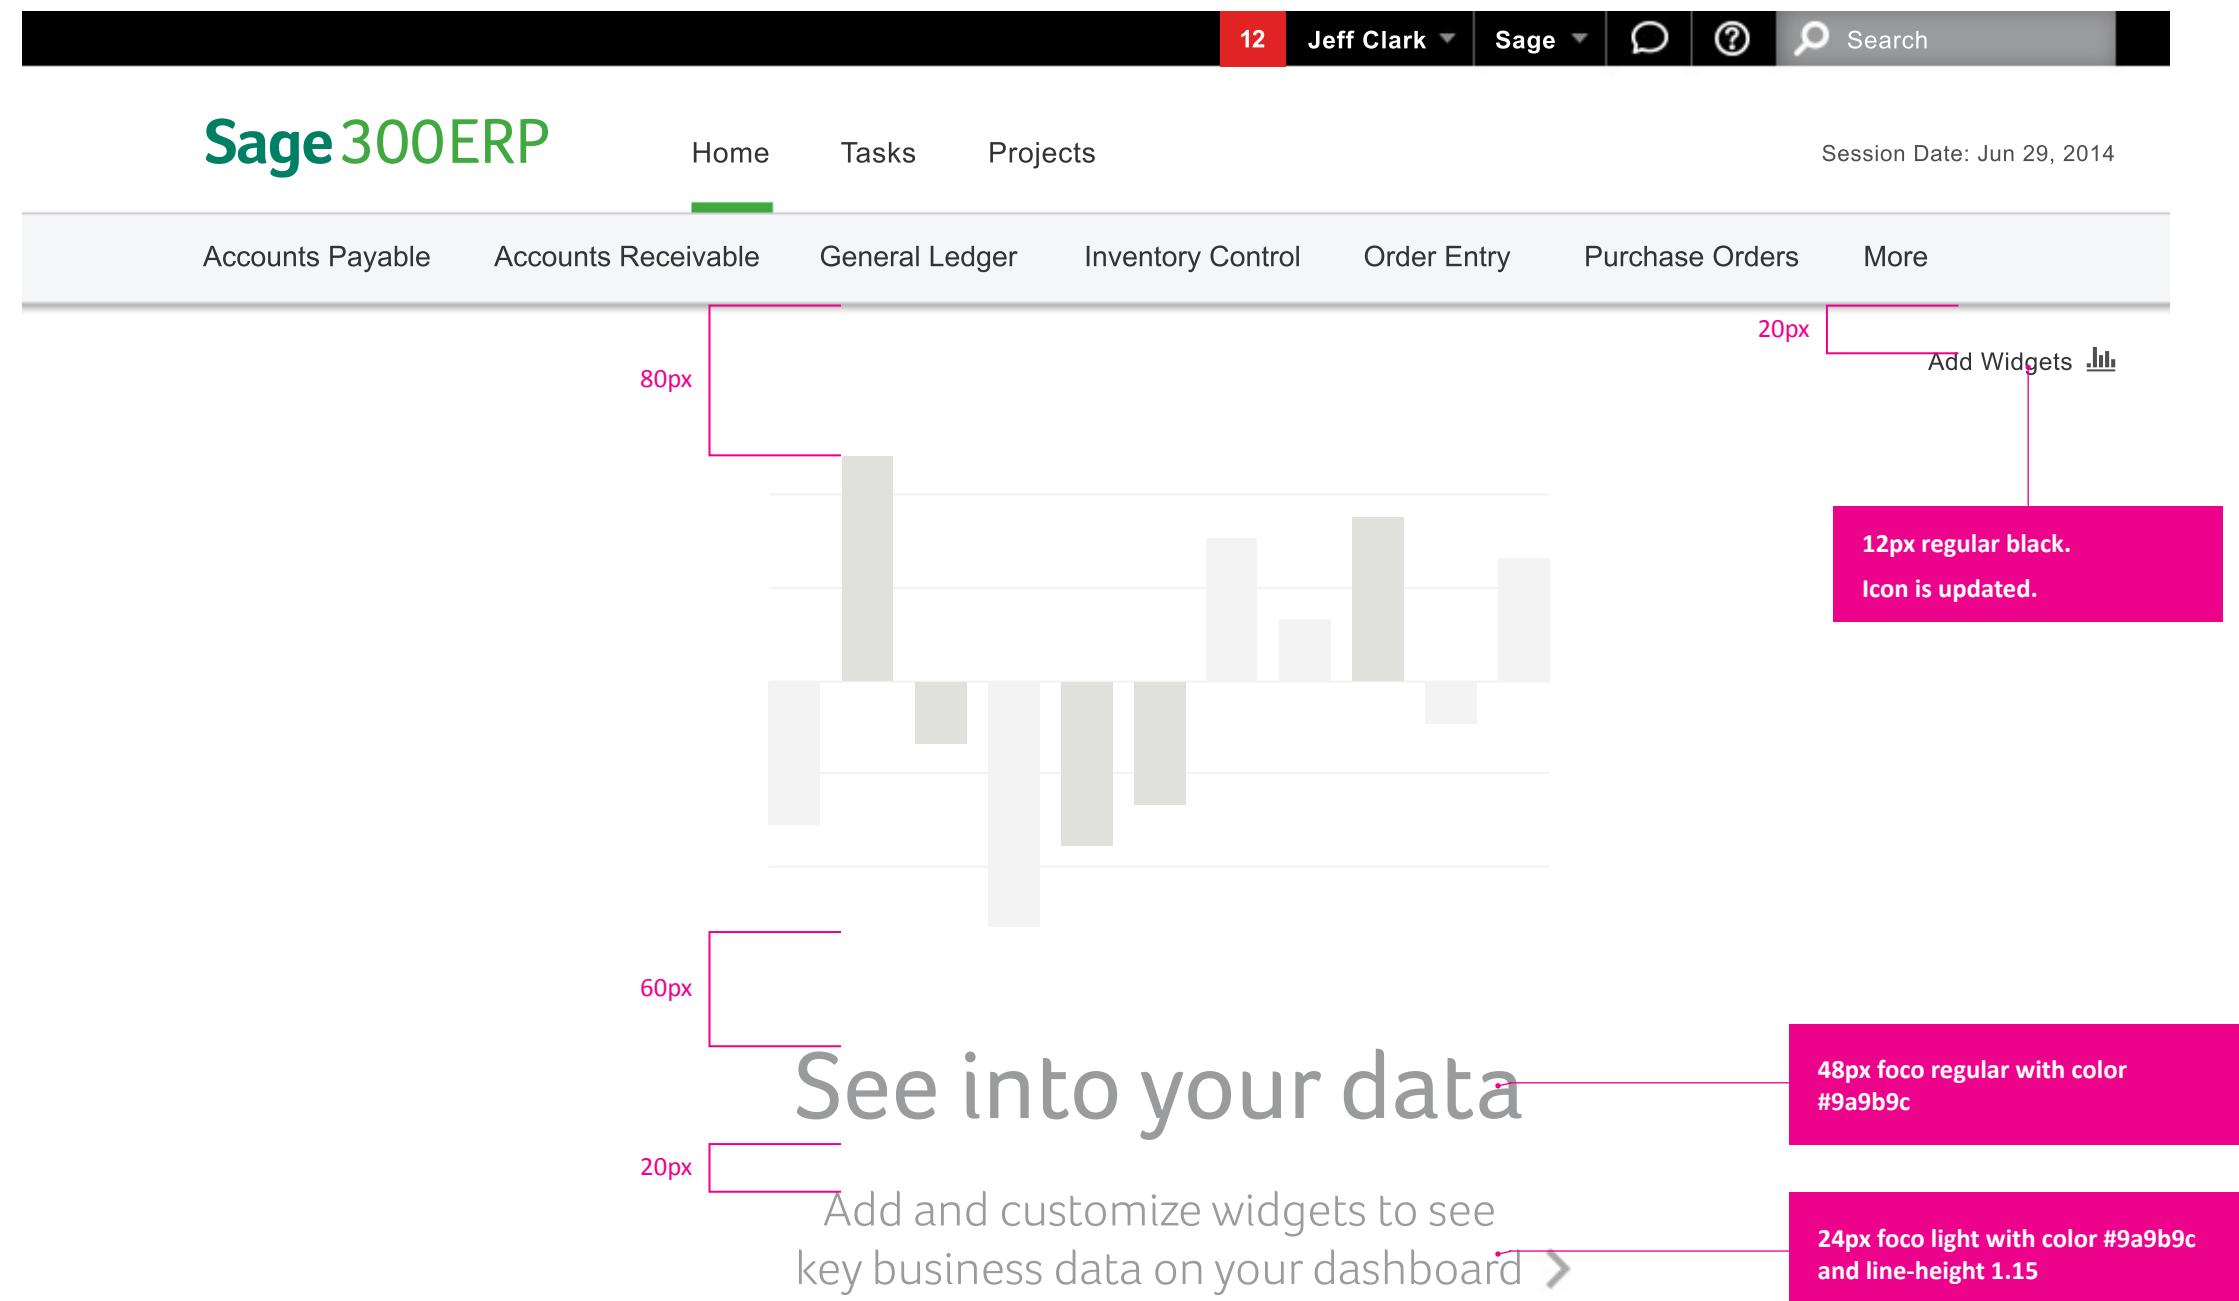

- 20px spacing around colon.
- 25px spacing between sister pages.

For categories that contain 7 or more sub-pages, append “more” drop down list and put 6th and later pages as a selection under the drop down list.

The screenshot shows the Sage 300ERP application window. At the top, there's a navigation bar with links for Home, Tasks, and Projects. On the far right, it shows the session date as "Jun 29, 2014". Below this is a main menu bar with several categories: Accounts Payable, Accounts Receivable, General Ledger, Inventory Control, Order Entry, Purchase Orders, and More. Under the "More" category, there's a dropdown menu titled "G/L Transactions" which includes options like G/L Journal Entry, Batch Listing, Post Batches, and another "Post Batches" option. A "More" link is also present in this dropdown. Two pink boxes highlight specific elements: one on the left labeled "Parent category. Bold and followed by colon." pointing to the "G/L Transactions" title, and another on the right labeled "Simple drop down list for 6th link and more." pointing to the "More" link in the dropdown menu.

RULES

On click of the copy "See into ... on your dashboard >", open add widget window.

RULES

The black overlay is #000 color with 85% opacity.

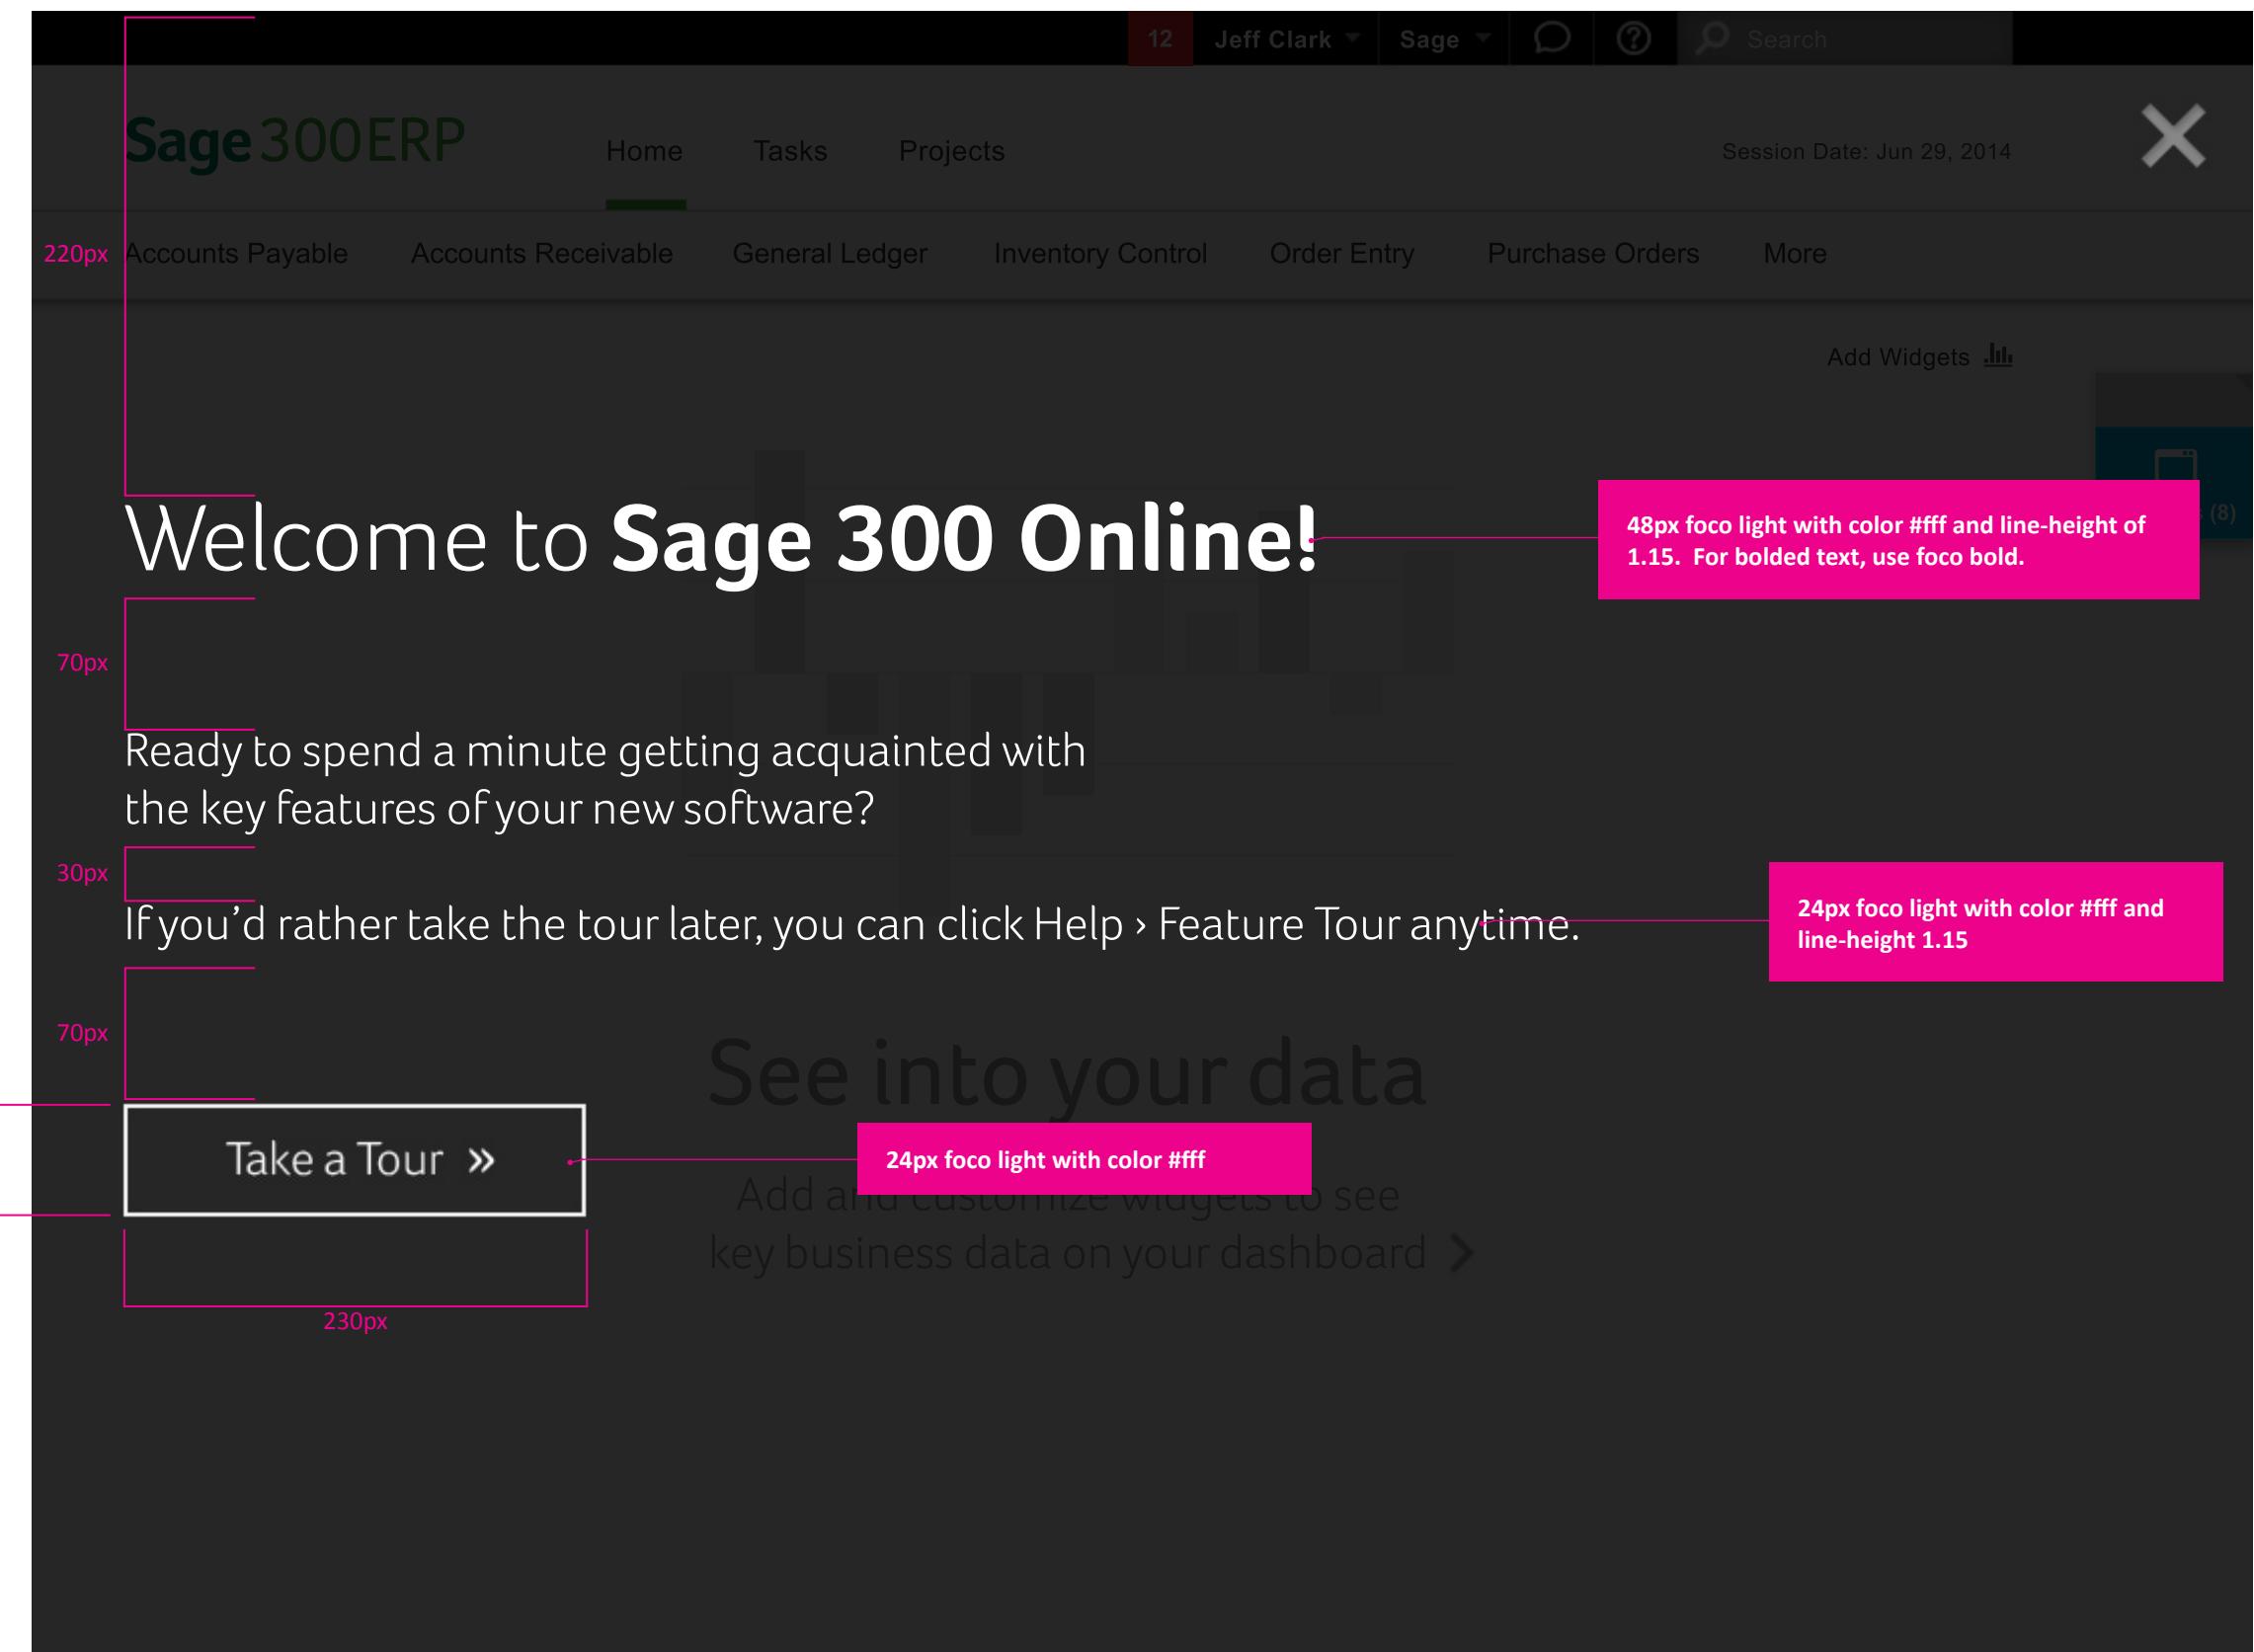

The horizontal layout must be fluid and conform to different screen resolutions.

The vertical layout can be fixed as specified as the design already considered minimum supported resolution.

The specs for all elements will remain consistent through out the tour.

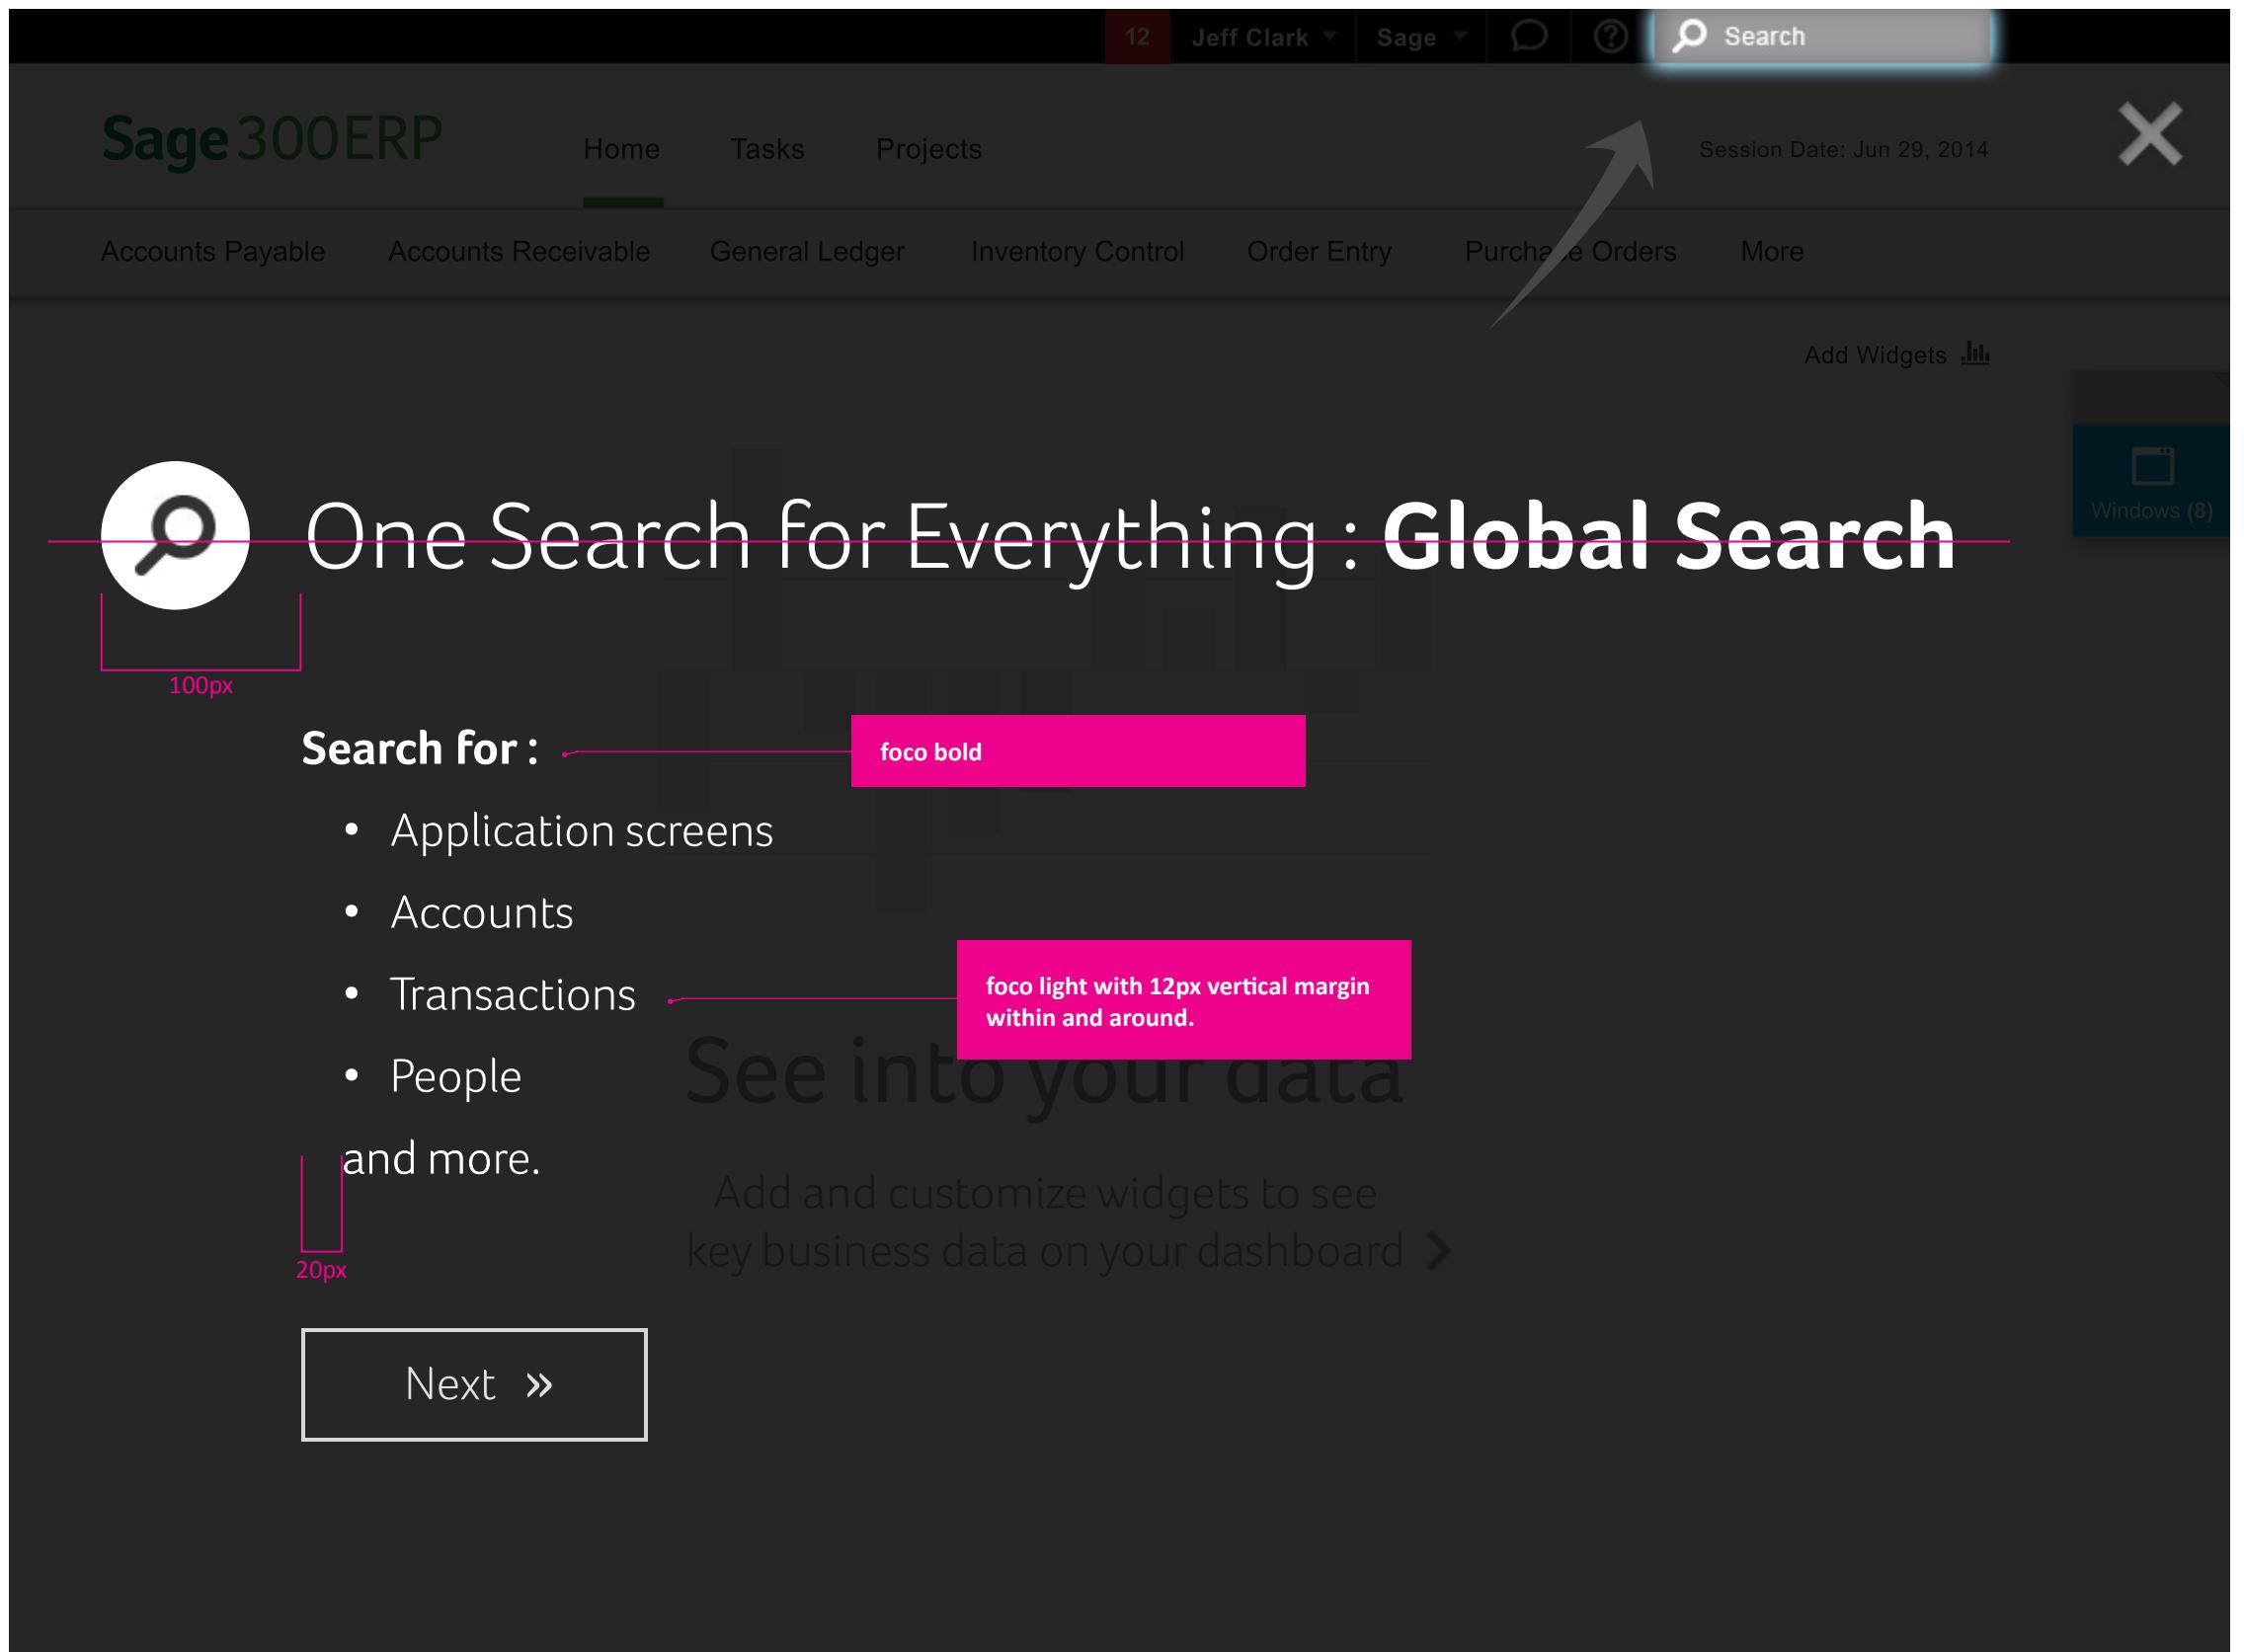

For buttons including the close button, lower opacity by 25% on hover and 50% on click.

Animation is explained on a separate page.

RULES

Inherit all style and spec from step 1.

RULES

Inherit all style and spec from step 1.

The screenshot shows the Sage 300ERP Home dashboard. At the top, there's a navigation bar with links for Home, Tasks, Projects, and various modules like Accounts Payable, Accounts Receivable, General Ledger, etc. A user session info bar shows "Jeff Clark" and the date "Jun 29, 2014". On the right, there's a sidebar with a search bar and a link to "Add Widgets". The main content area features a large heading "Your Data at a Glance : KPIs" next to a bar chart icon. Below it, a callout box says "Add and customize widgets on the dashboard to see the information you need at a glance." At the bottom left, a "Next >" button is visible, and on the right, another callout box says "Add and customize widgets to see key business data on your dashboard >". A pink arrow points from the "100px" dimension callout in the first section to the "100px" dimension callout in the second section.

RULES

Sage 300 Online

Inherit style from page 31 for the header area.

This is the error page template before the user is signed-in.

Styles for the header, the footer and the grey main content area can be inherited from page 31.

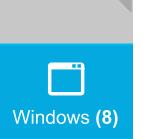

RULES

This is the error page template when the user is signed-in.

Styles for the error message block can be inherited from previous page.

The screenshot shows the Sage 300 Online interface. At the top, there's a navigation bar with links for Home, Tasks, Projects, Accounts Payable, Accounts Receivable, General Ledger, Inventory Control, Order Entry, Purchase Orders, and More. A red notification bar at the top right indicates '12' notifications for 'Jeff Clark'. The main content area displays an error message: 'Unexpected Error. Lorem Ipsum Dolores [Title]'. Below the title, there's a large amount of placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.' Underneath this, another paragraph of placeholder text reads: 'Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur. Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum.' At the bottom of the message block is a blue link labeled 'More information'.

RULES

This is the mockup for portal landing page showing widgets.
All diagrams used in widgets are place holder images.

- All widget boxes are of the same size 460px by 315px.
- Date info is located bottom right corner.
- All diagrams are of the same size 430px by 225px.
- When a widget gets dragged, the receiving box has border color changing to #41a940 from #e0e1dd.
- The default font size is 12px. Inside diagrams, the default font size is 11px.

Continues to next page.

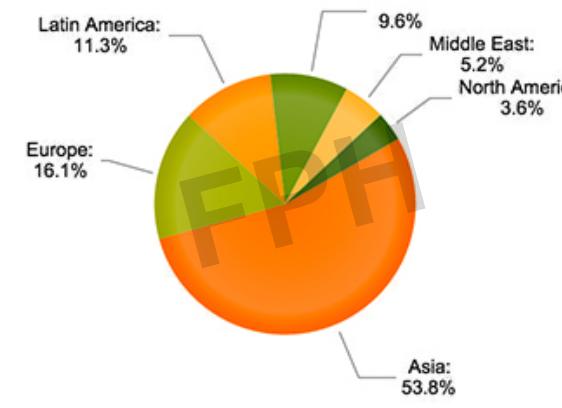

The mockup displays the Sage 300 Online portal landing page with the following components:

- Header:** Sage 300 Online, Home, Tasks, Projects, Session Date: Jun 29, 2014 Edit.
- Navigation Bar:** Accounts Payable, Accounts Receivable, General Ledger, Inventory Control, Order Entry, Purchase Orders, More.
- Welcome Section:** Welcome to Sage 300 Online.
- Widgets:**
 - Aged Receivables:** Line chart showing receivable aging from 2000 to 2008. The chart area has a light green-to-blue gradient background.
 - Payables Outstanding:** Bar chart showing payables outstanding across six periods from Period-1 to Period-11. The chart area has a light orange-to-green gradient background.
 - Profit:** Pie chart showing regional distribution for Fiscal Year 2014 / Fiscal Period 0. Labels include Latin America (11.3%), Europe (16.1%), Asia (53.8%), Middle East (5.2%), and North America (3.6%). A callout box with a pink border and white text "2px #ccc solid" points to the pie chart.
 - Cash Position:** Table showing cash position details for Fiscal Year 2014 / Fiscal Period 0. It includes columns for Total Cash, Receivables, Total Cash + Receivables, Less Current Liabilities, and Cash Position. A callout box with a pink border and white text "1px #ccc solid" points to the "Cash Position" column header.
 - Trends:** Line chart showing trends over time.
 - Income from Operations:** Table showing income statement details for Period No. 7 (31/07/2020) and Year 2020. It includes columns for Operating Income and Cost of Sales.

RULES

The widget setting window opens when widget setting icon is clicked.

The widget setting window closes when "x" is clicked or when one of the links are clicked.

The screenshot shows the Sage 300 Online dashboard with several widgets:

- Widget Setting (Top Left):** A modal window titled "Widget Setting" is open over a chart. It contains links: "Rename", "Refresh", "Open Report", and "Hide". A pink callout box highlights the "Widget Setting" link with the text "14px #41a940". Another pink callout box highlights the "Rename" link with the text "23px". A third pink callout box highlights the "Open Report" link with the text "15px inner spacing including 1px #e0e1dd border. For box-shadow, use -4px 4px 10px 0 rgba(0,0,0,0.12)". A fourth pink callout box highlights the "Hide" link with the text "200px".
- Payables Outstanding (Top Right):** A bar chart showing Payables Outstanding by period from Period-1 to Period-11. The Y-axis ranges from \$0.00 to \$140,000.00. The X-axis shows dates from 31/01/2020 to 31/11/2020.
- Profit (Middle Left):** A pie chart titled "Fiscal Year 2014 / Fiscal Period 0" showing regional distribution. The segments are: Asia (53.8%), Europe (16.1%), Latin America (11.3%), Middle East (5.2%), and North America (3.6%).
- Cash Position (Middle Right):** A table titled "Fiscal Year 2014 / Fiscal Period 0" showing cash-related metrics. All values are \$0.00.
- Trends (Bottom Left):** A line chart showing trends over time, with values ranging from approximately 50,000 to 70,000.
- Income from Operations (Bottom Right):** A table showing Income from Operations for Period No. 7 (31/07/2020) and Year 2020. The table includes Operating Income (\$940,373.00) and Cost of Sales (\$11,940,373.00).

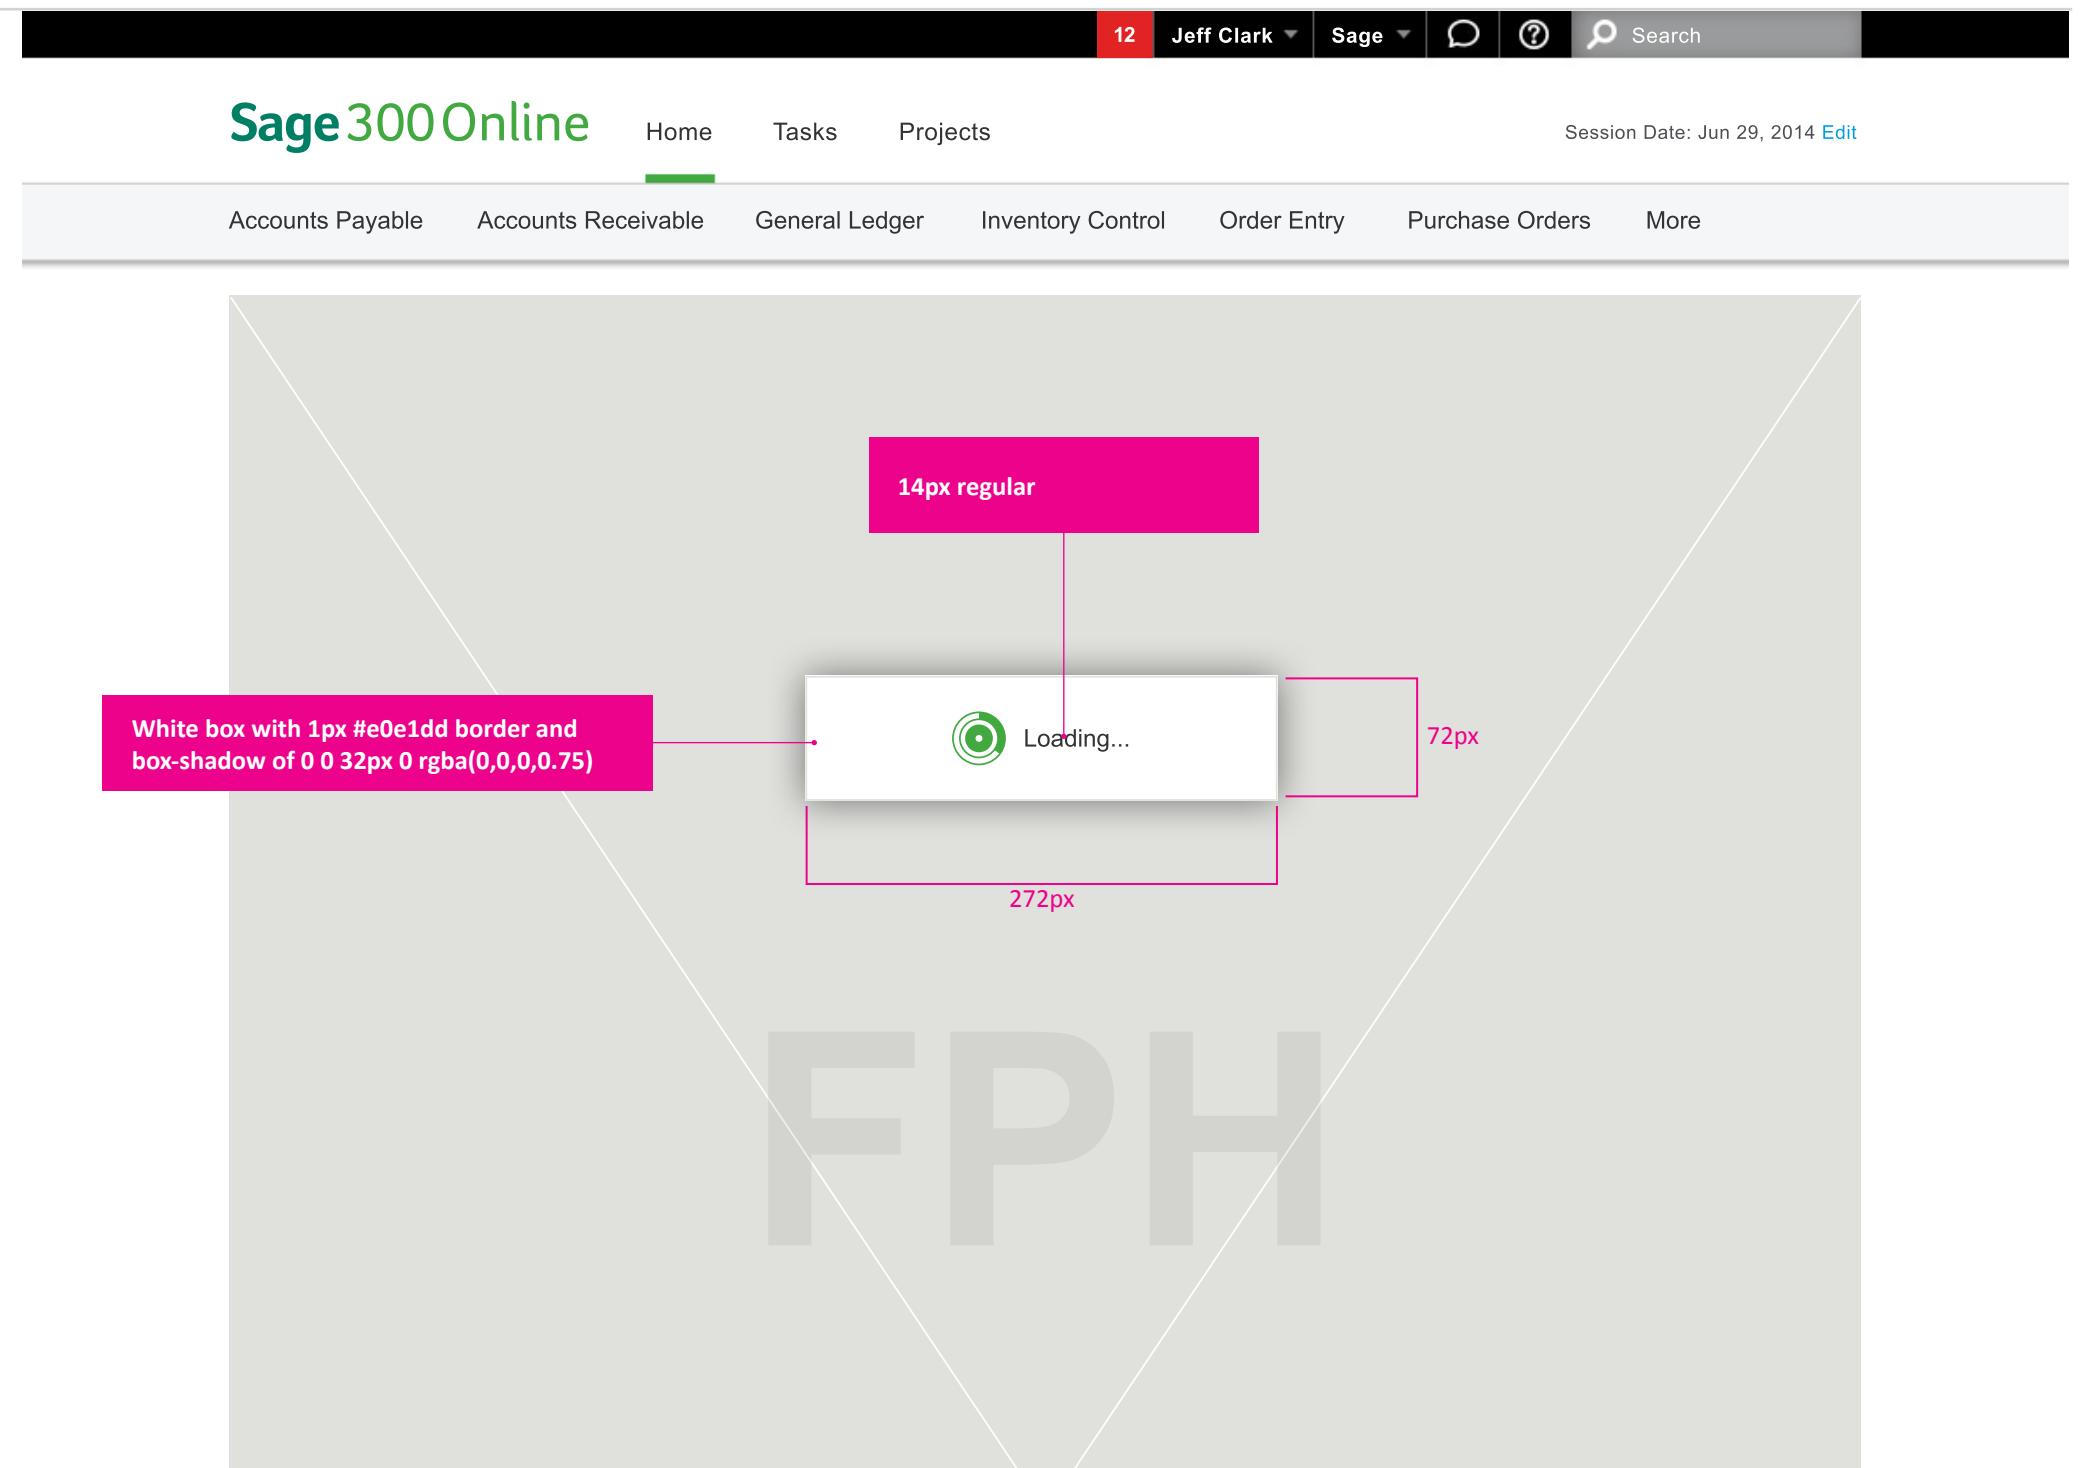

RULES

For any process indicator where an event progresses over time or a list items gets completed one after another, use a box with a spinner and label explaining what's happening.

The box is always centered both vertically and horizontally with respect to visible screen.

This will be followed by toast confirmation message which disappears automatically after 3 seconds or when "x" is clicked.

Continues to next page...

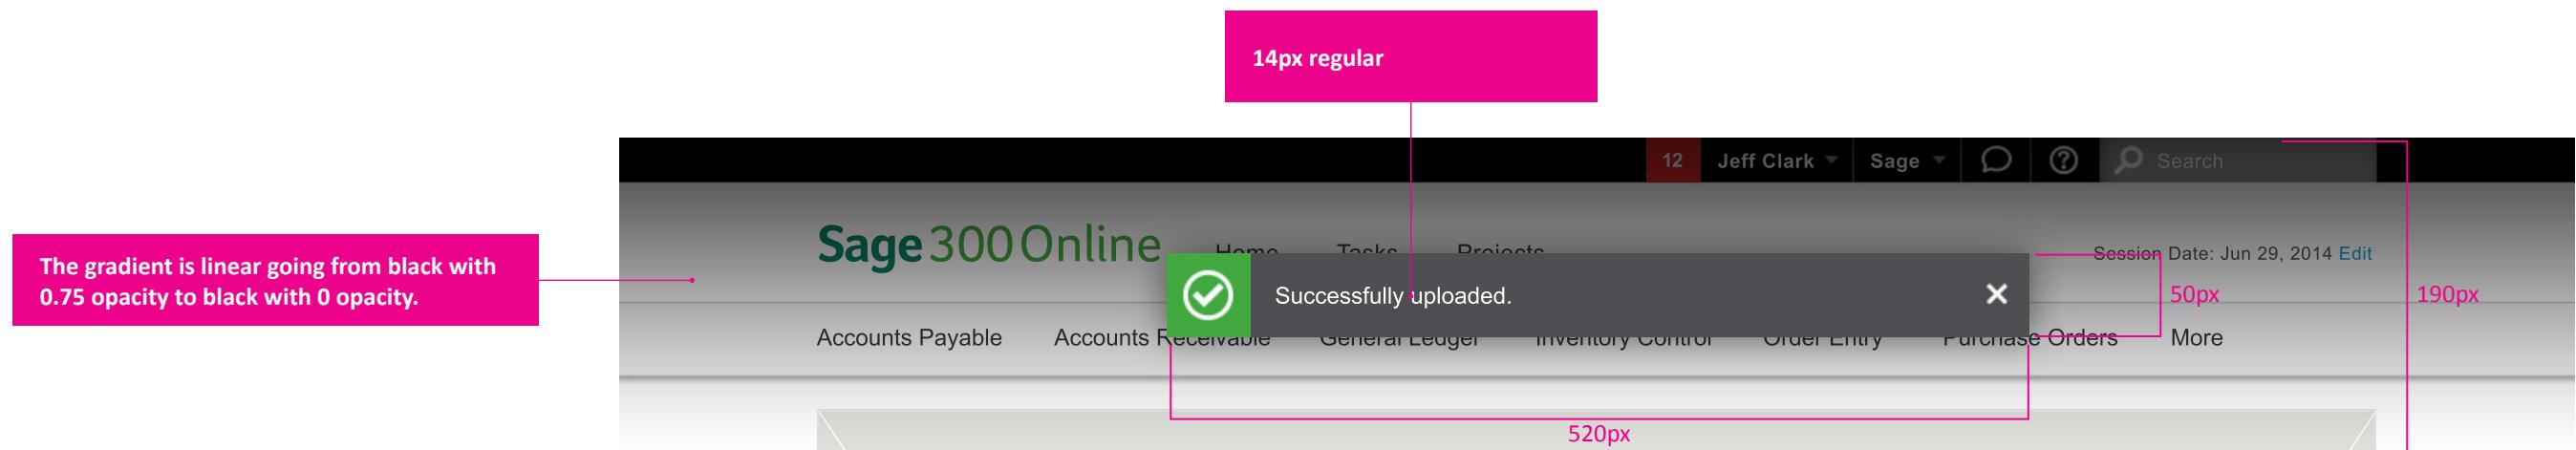

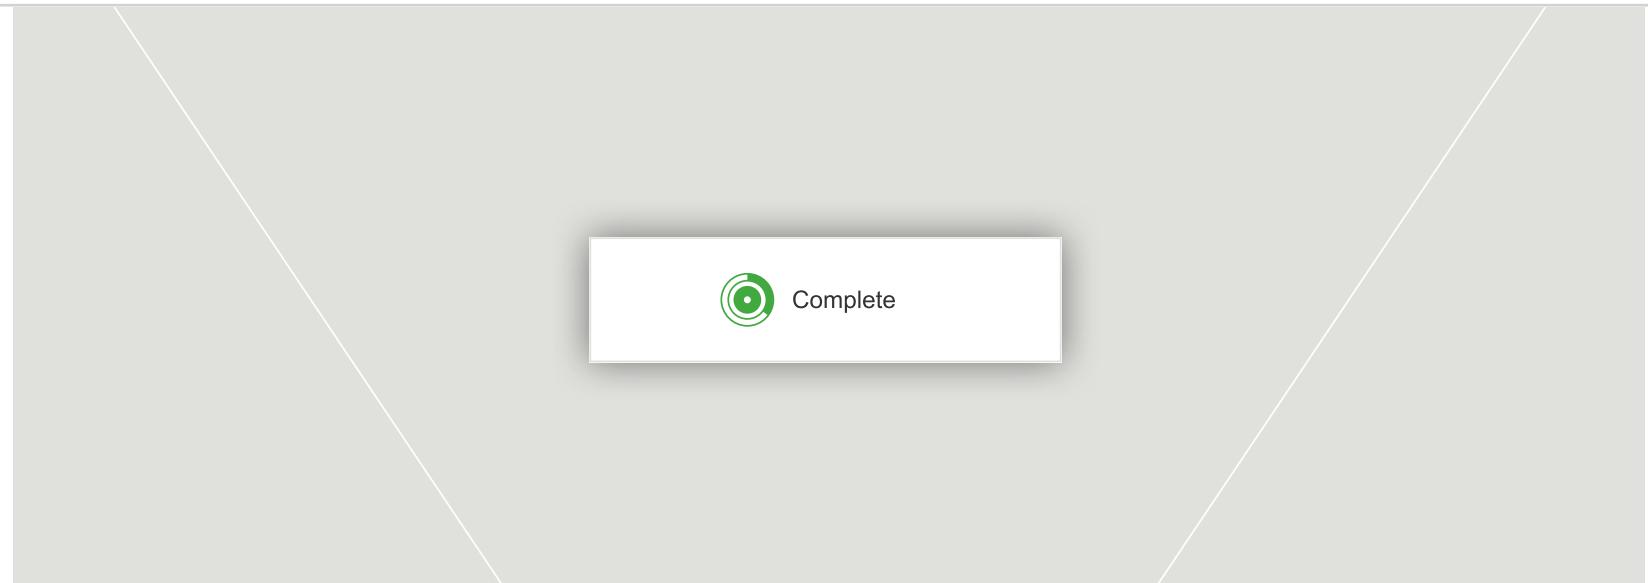

RULES

Continued from previous page.

Once a process is successfully completed, display confirmation message.

- The message box slides from top appearing from 0 opacity to 1.
- Unless "x" is clicked, the message stays open for 3 seconds and slides back up with opacity dropping to 0.

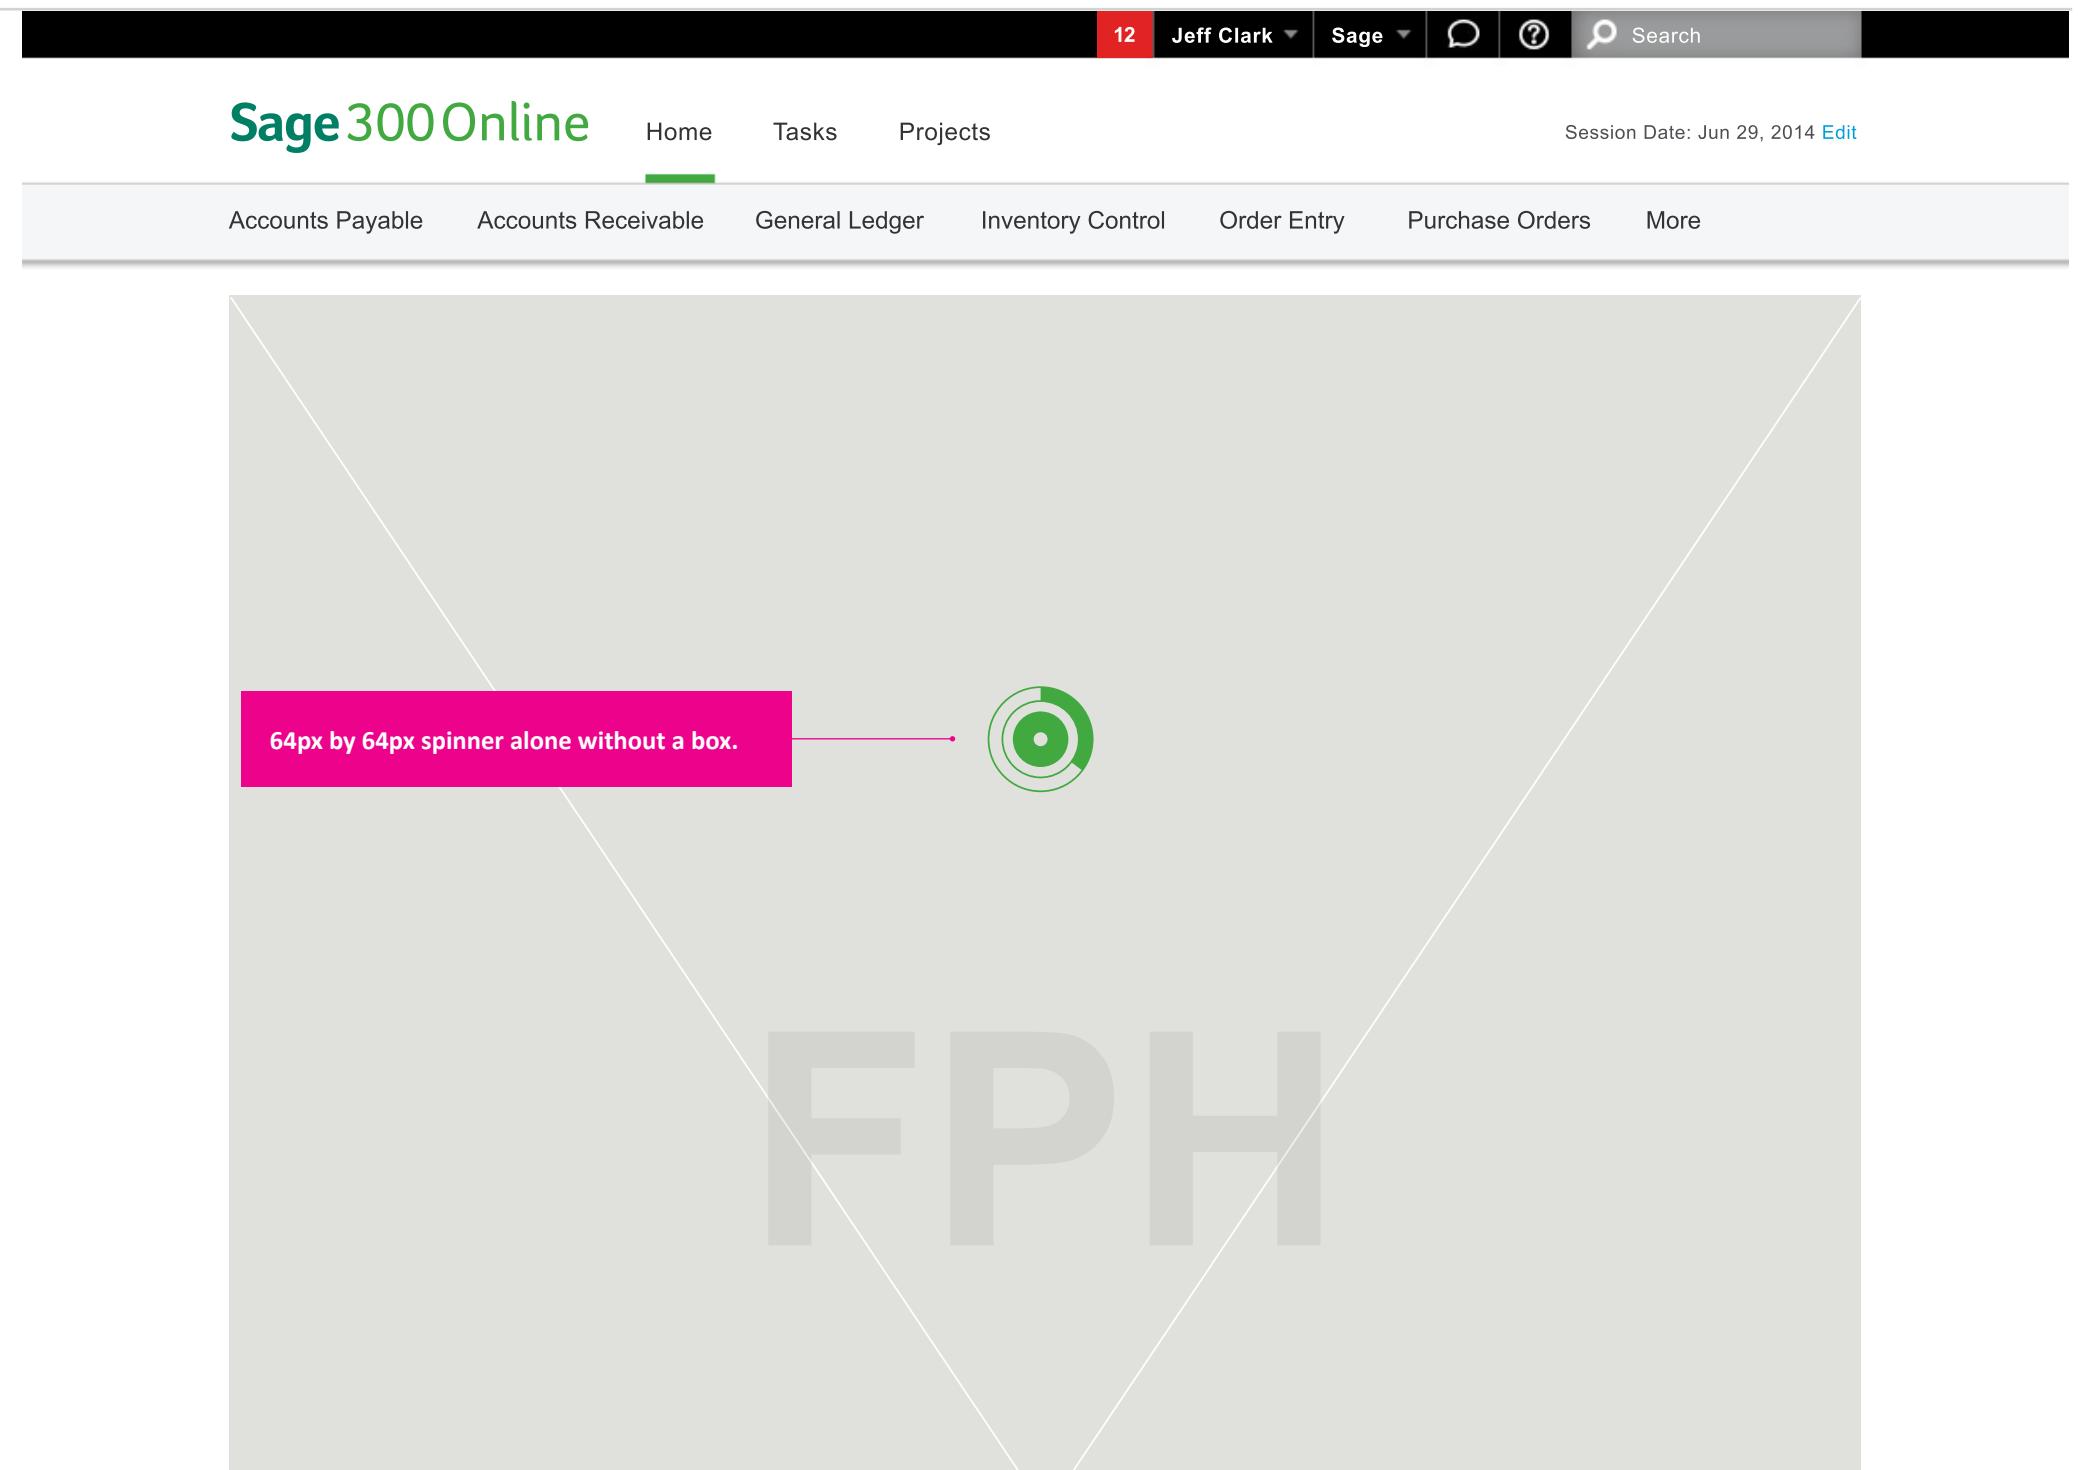

RULES

Standalone spinner is used for quick refresh, update and such.

The spinner should be centered both vertically and horizontally with respect to affected element.

For example, spinner for individual KPI widget should be centered right in the box.

If the spinner is for finder, it should be centered with respect to visible screen as entire form fields are affected.

RULES

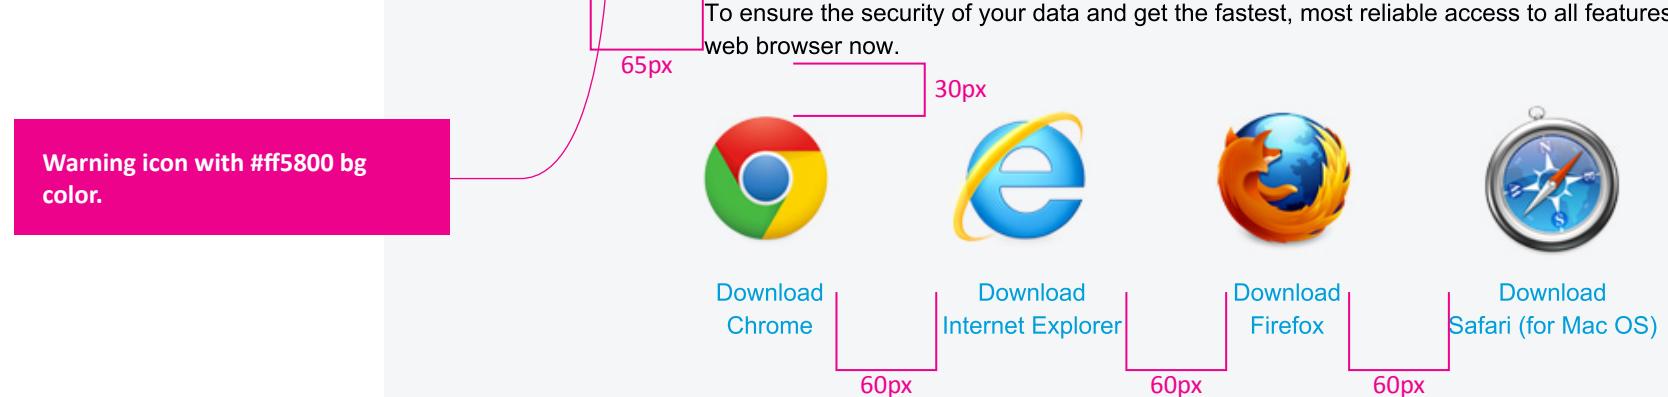

Sage 300 Online

Placement of this title is exactly the same as the title in page 31, First Tenant > Setup Questions.

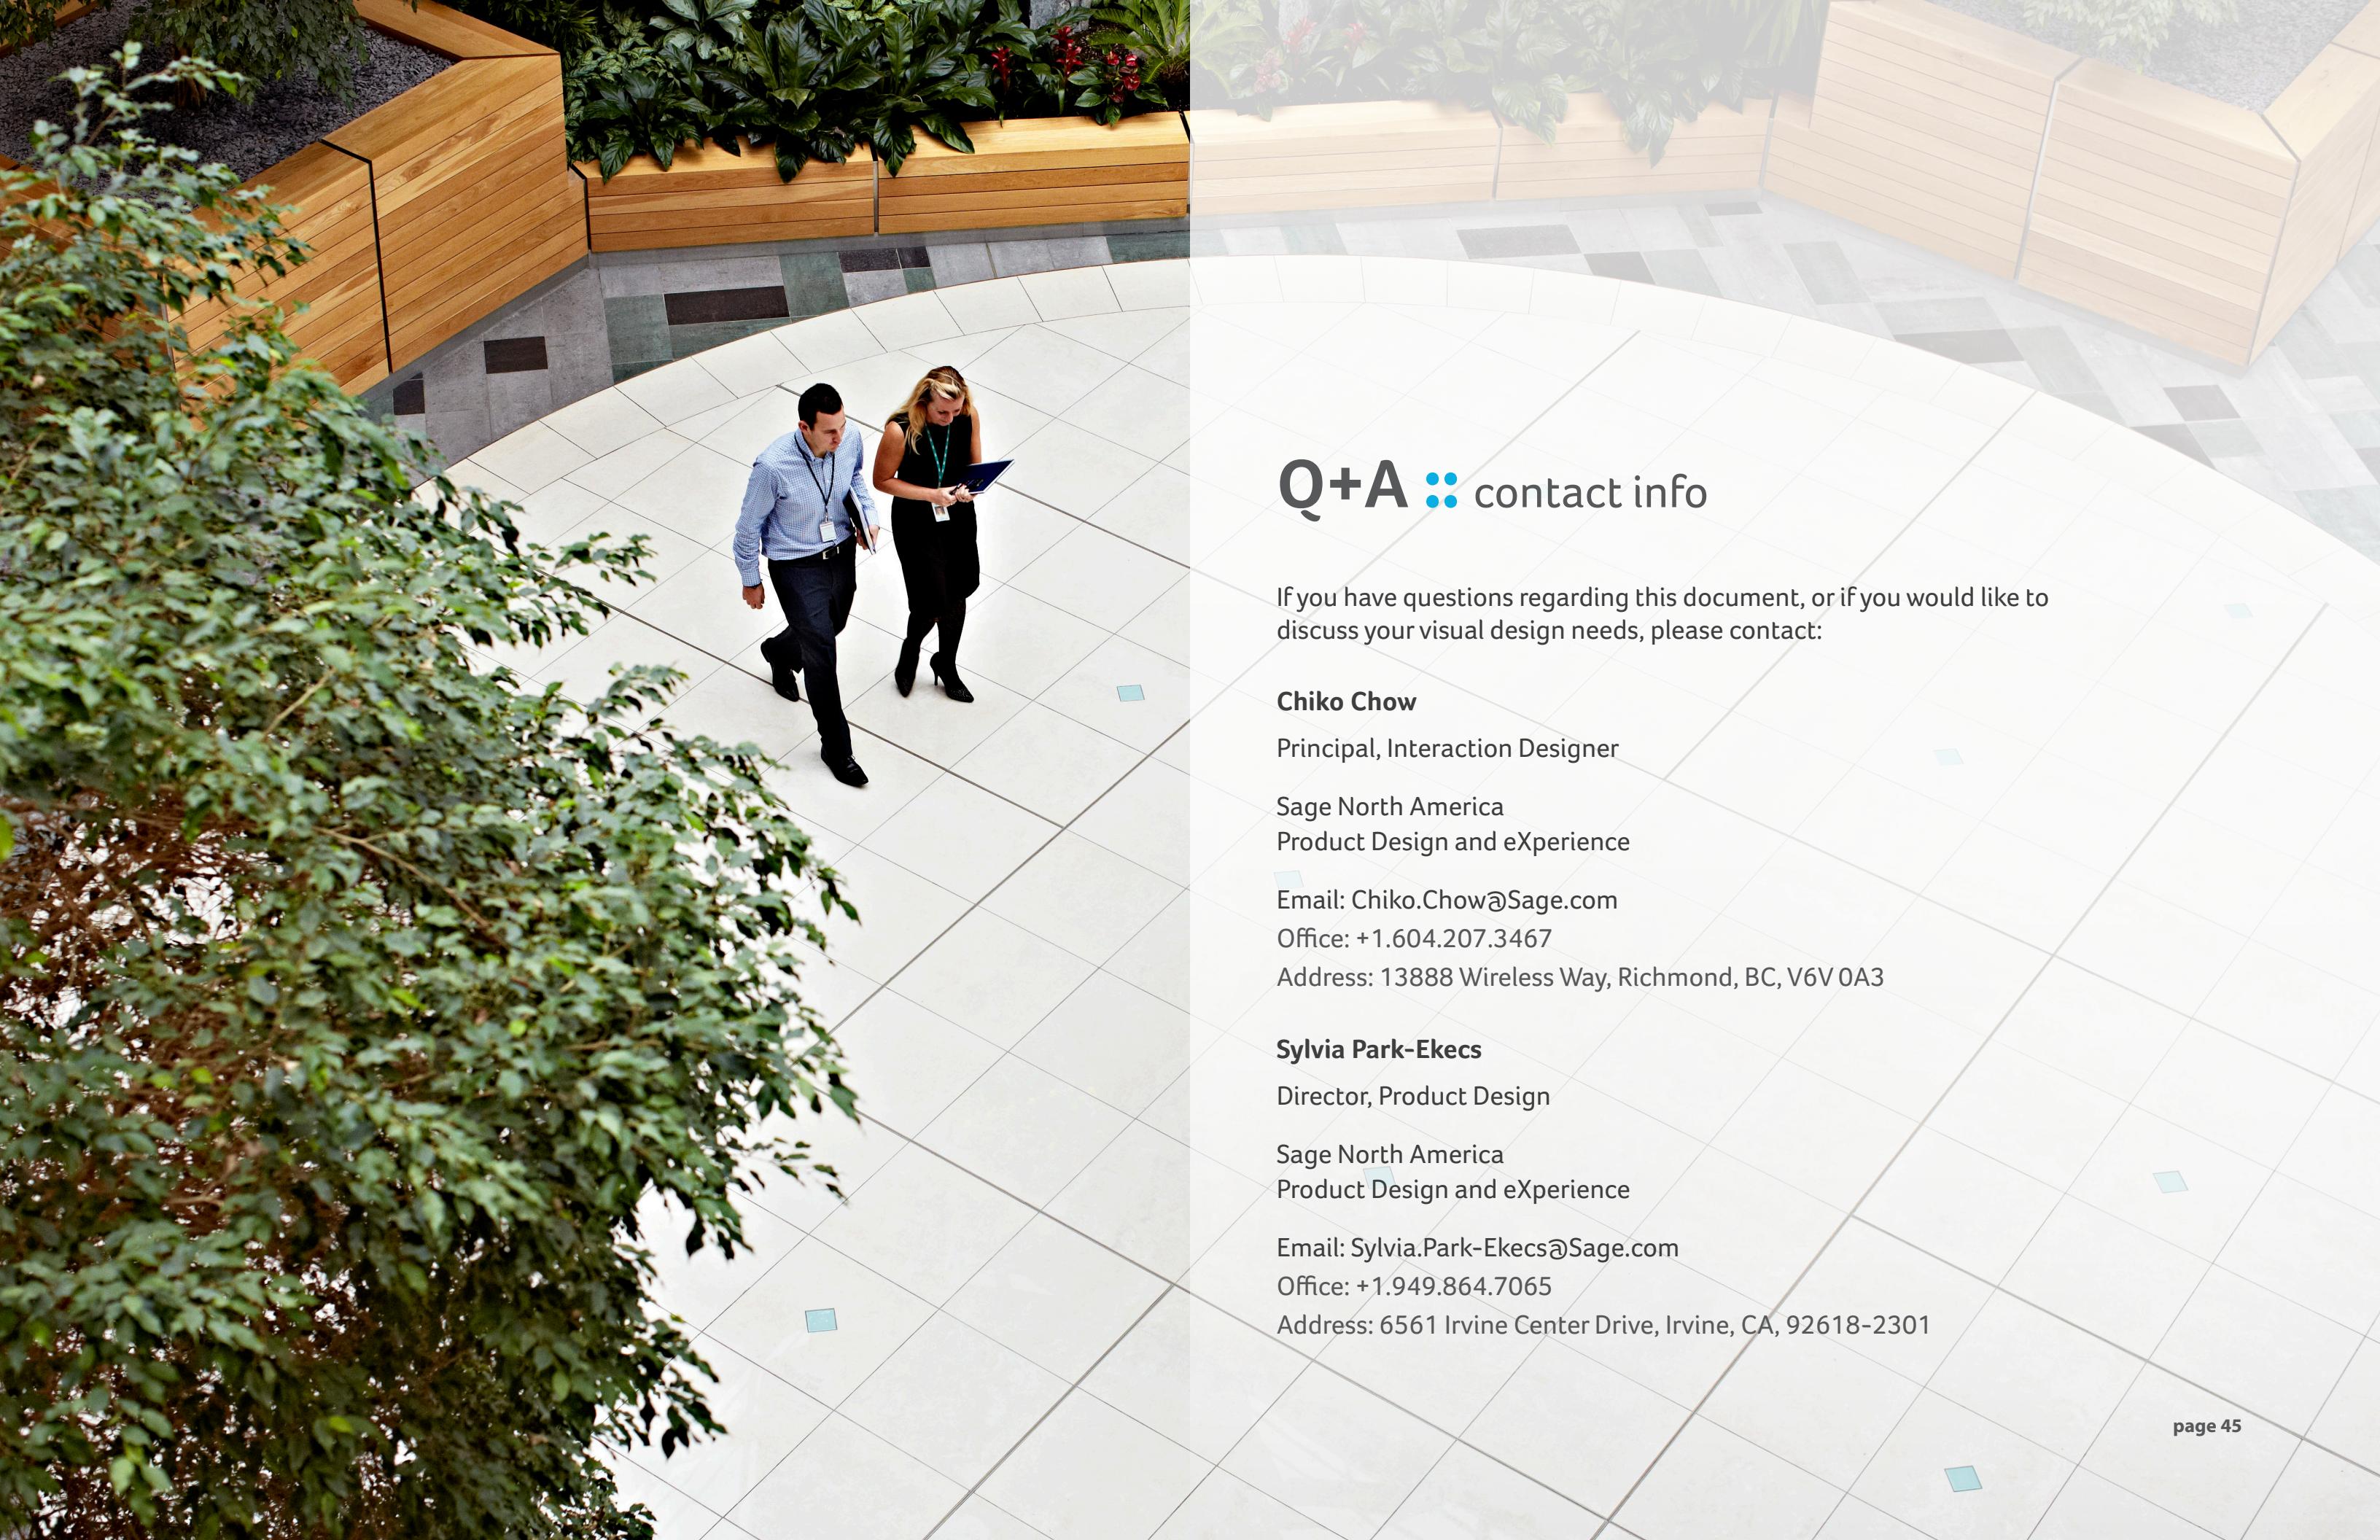

Use graphic for the product logo.

Inherit styles from page 31, First Tenant > Setup Questions.
